

Act (NGA).¹ Natural gas pipeline companies file applications with the Commission furnishing information in order to facilitate a determination of an applicant's qualification for an exemption under the provisions of the Section 1(c). If the Commission grants exemption, the natural gas pipeline company is not required to file certificate applications, rate schedules,

or any other applications or forms prescribed by the Commission.

The exemption applies to companies engaged in the transportation, sale, or resale of natural gas in interstate commerce if: (a) They receive gas at or within the boundaries of the state from another person at or within the boundaries of that state; (b) such gas is ultimately consumed in such state; (c) the rates, service and facilities of such company are subject to regulation by a

State Commission; and (d) that such State Commission is exercising that jurisdiction. 18 CFR Part 152 specifies the data required to be filed by pipeline companies for an exemption.

Type of Respondents: Pipeline Companies

*Estimate of Annual Burden:*² The Commission estimates the total Public Reporting Burden for this information collection as:

FERC-574: GAS PIPELINE CERTIFICATES: HINSHAW EXEMPTION

Number of respondents	Number of responses per respondent	Total number of responses	Average burden hours per response	Estimated total annual burden
(A)	(B)	(A) × (B) = (C)	(D)	(C) × (D)
1	1	1	60	60

The total estimated annual cost burden to respondents is \$4,200 [60 hours * \$70/hour³ = \$4,200].

Comments: Comments are invited on: (1) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
