

other environmental values or resources; and

(3) Impacts of the HCP, considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result, over time, in cumulative effects to environmental values or resources that would be considered significant.

We conclude that implementation of the plan would result in overall minor or negligible effects on the PMJM and its habitats. We may revise this preliminary determination based on public comments submitted in response to this notice. We will evaluate the permit application, the draft low-effect HCP, and comments submitted herein to determine whether the application meets the requirements of section 10(a) of the Act. If the application satisfies the requirements, we will issue a permit for the incidental take of the PMJM from the development of the Kettle Creek Ranch. We will make the final permit decision after considering the public comments.

Based upon this preliminary determination, we do not intend to prepare further NEPA documentation. We will consider public comments in making the final determination on whether to prepare such additional documentation.
