The National Reading Panel was requested by Congress and created by the Director of the National Institute of Child Health and Human Development in consultation with the Secretary of Education. Its members include prominent reading researchers, teachers, child development experts, leaders in elementary and higher education, and parents. The Chair of the Panel is Dr. Donald N. Langenberg, Chancellor of the University System of Maryland.

The Panel is building on the findings presented by the National Research Council's Committee on the Prevention of Reading Difficulties in Young Children. Based on these findings and the National Reading Panel's own review of the literature, the Panel will: determine the readiness for application in the classroom of the results of these research studies; identify appropriate means to rapidly disseminate this information to facilitate effective reading instruction in the schools; and identify gaps in the knowledge base for reading instruction and the best ways to close these gaps.

The agenda for this meeting will include discussion and final acceptance of the reports by The National Reading Panel. A period of time will be set aside at approximately 3:00 PM on Monday, January 31 for members of the public to address the Panel and express their views regarding the Panel's mission.
