

comment and review periods. The Proposed Action includes construction, renovation, and operation of proposed facilities to accommodate incoming military missions at APG. To implement the BRAC recommendations, APG will be receiving personnel, equipment, and missions from various closure and realignment actions within the Department of Defense. To implement the BRAC Commission recommendations, the Army will provide the necessary facilities, buildings, and infrastructure to support incoming military missions and a net gain of about 4,400 people as mandated by the 2005 BRAC Commission's recommendations at APG. The No Action Alternative would not meet the Army's purpose and need for the Proposed Action as the BRAC realignment is required by Congress and needed for Army transformation to be effective.

Special consideration was given to the effect of the Preferred Alternative on natural resources, cultural resources, and traffic. All practicable means to avoid or minimize environmental harm from the Preferred Alternative have been adopted. The Army will minimize effects on all environmental and socioeconomic resources by implementing best management practices as described in the EIS. Mitigation measures, as described in the ROD, will be implemented, subject to the availability of funding, to minimize, avoid, or compensate for the adverse effects identified in the EIS at APG for biological resources and cultural resources. The EIS also identifies transportation projects that could eliminate adverse impacts from implementing the Preferred Alternative. The ROD describes the disposition of these projects and the approach the Army will take to mitigate traffic concerns.

The ROD states that implementing the Preferred Alternative reflects a proper balance between initiatives for protection of the environment, appropriate mitigation, and actions to achieve the Army's requirements.

An electronic version of the ROD is available for download at: http://www.hqda.army.mil/acsim/brac/nepa_eis_docs.htm.

Title and OMB Number: Defense Logistics Agency Survey of Supply

Vendors; OMB Control Number 0704-0429.

Needs and Uses: The Defense Logistics Agency (DLA) is transforming its distribution business practices. It is developing an automated system that will give it visibility on the location and movement of material originating at Government and contractor locations alike, and the ability to use that information for Corporate-wide planning and management. DLA needs to understand corresponding business practices of segments of the contractor community. The survey information will be used by DLA to help determine the extent to which shipments from contractor locations can be integrated into DLA's distribution practices.

Affected Public: Business or other for-profit.

Annual Burden Hours: 200.

Number of Respondents: 200.

Responses Per Respondent: 1.

Average Burden Per Response: 1 hour.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are businesses who supply material to the Defense Logistics Agency in direct support of customer requirements or to be placed into stock for future requirements. The survey will seek information concerning each contractor's demographics, order management practices, shipping practices, costs and pricing, and utilization of technology. Participation in the survey will be voluntary.

Dated: August 21, 2007.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.
