Drinking water systems are basic and vital to both health and economic development. With dependable water facilities, rural communities can attract families and businesses that will invest in the community and improve the quality of life for all residents. Without dependable water facilities, the communities cannot sustain economic development.

The USDA Rural Development Utilities Programs supports the sound development of rural communities and the growth of our economy without endangering the environment. Rural Utilities Service (RUS) programs are administered by USDA Rural Development. USDA Rural Development provides financial and technical assistance to help communities bring safe drinking water and sanitary, environmentally sound waste disposal facilities to rural Americans in greatest need.

The Revolving Fund (RFP) Grant Program has been established to assist communities with water or wastewater systems. Qualified private non-profit organizations will receive RFP grant funds to establish a lending program for eligible entities. Eligible entities for the revolving loan fund will be the same entities eligible to obtain a loan, loan guarantee, or grant from the Water and Waste Disposal and Wastewater loan and grant programs administered by USDA Rural Development. As grant recipients, the non-profit organizations will set up a revolving loan fund to provide loans to finance predevelopment costs of water or wastewater projects, or short-term small capital projects not part of the regular operation and maintenance of current water and wastewater systems. The amount of financing to an eligible entity shall not exceed \$100,000.00 and shall be repaid in a term not to exceed 10 years. The rate shall be determined in the approved grant work plan.

Specifically, Notch requests that the Department revoke the AD order with respect to imports of certain cased pencils meeting the following description: novelty jumbo pencil that is octagonal in shape, approximately ten inches long, one inch in diameter, and three-and-one eighth inches in circumference, composed of turned wood encasing one-and-one half inches of sharpened lead on one end and a rubber eraser on the other end. *See Notch Request Letter at 1.* On May 6, 2005, the domestic interested parties submitted a letter to the Department stating that they " * * * do not object to exclusion of items meeting the description set forth in the quoted description" (as stated above).
