#### Fisheries of the Northeastern United States; Atlantic Bluefish Fishery; Readjustment to 2002 Quotas; Commercial Quota Adjustments for Maryland and Virginia

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Commercial quota adjustments.

**SUMMARY:** NMFS announces adjustments to the 2002 commercial Atlantic bluefish quota for the States of Maryland and the Commonwealth of Virginia. This action complies with regulations implementing the Fishery Management Plan for Atlantic Bluefish (FMP), which require that landings in excess of a state's commercial quota be deducted from that state's quota the following year. The FMP also allows two or more states, under mutual agreement and with the concurrence of the Administrator, Northeast Region, NMFS (Regional Administrator), to transfer or combine part or all of their annual commercial quota. The Regional Administrator must consider the criteria set forth in § 648.160(f)(1) in the evaluation of requests for quota transfers or combinations. The public is advised that quota adjustments have been made and is informed of the revised quotas for the affected states.

**DATES:** Effective October 7, 2002 through December 31, 2002.

**FOR FURTHER INFORMATION CONTACT:** Myles A. Raizin, Fishery Policy Analyst, 978-281-9104.

**SUPPLEMENTARY INFORMATION:** Regulations implementing Atlantic bluefish management measures are found at 50 CFR part 648, subpart J. The regulations require annual specification of a commercial quota that is apportioned among the Atlantic coastal states from Maine through North Carolina. The process to set the annual commercial quota and the percent allocated to each state is described in § 648.160. The final specifications for the 2001 Atlantic bluefish fishery set a total commercial quota equal to 9.58 million lb (4.35 million kg) (66 FR 23625; May 9, 2001). Maryland and Virginia's quota shares were calculated to be 287,662 lb (130,518 kg) and
