

those airplanes on which one of the following has been incorporated: Airbus Modification 48579 in production; Airbus Service Bulletin A330-27-3092, dated February 14, 2003, in-service; or Airbus Service Bulletin A340-27-4098, dated February 14, 2003, in-service.

Compliance: Required as indicated, unless accomplished previously.

To prevent loss of the sensor strut function, resulting in the inability to detect flap drive disconnection at flap track stations 4 and 5, which could lead to separation of the outboard flap from the airplane, and consequent reduced controllability of the airplane, accomplish the following:

Inspection

(a) Within 2,800 flight hours or 18 months after the effective date of this AD, whichever occurs later: Do an inspection by applying hand force to the piston of the sensor struts and moving the sensor struts longitudinally, for evidence of corrosion in the sensor struts at flap track 4, on the left and right sides of the airplane, by doing all the applicable actions specified in the Accomplishment Instructions of Airbus Service Bulletin A330-27-3091, Revision 03 (for Model A330 series airplanes); or Service Bulletin A340-27-4097, Revision 03 (for Model A340-200 and -300 series airplanes); both dated January 16, 2004; as applicable. If the longitudinal travel range is 60.0mm (2.36 inches) or more: Repeat the inspection thereafter at intervals not to exceed 18 months, until the requirements of paragraph (d) of this AD are accomplished.

Related Investigative and Corrective Actions

(b) If the result of the inspection required by paragraph (a) of this AD is a longitudinal travel range of less than 60.0mm (2.36 inches): Before further flight, remove all affected sensor struts, and measure the axial force of any affected sensor struts, by doing all of the applicable actions per the Accomplishment Instructions of Airbus Service Bulletin A330-27-3091, Revision 03 (for Model A330 series airplanes); or Service Bulletin A340-27-4097, Revision 03 (for Model A340-200 and -300 series airplanes); both dated January 16, 2004; as applicable.

(1) If the axial force F is less than or equal to 50 daN (112.41 lbf.): Clean and re-install the sensor struts per the Accomplishment Instructions of the applicable service bulletin. Repeat the inspection required by paragraph (a) of this AD thereafter at intervals not to exceed 18 months, until the requirements of paragraph (d) of this AD are accomplished.

(2) If the axial force F is more than 50 daN (112.41 lbf.): Before further flight, do a detailed inspection for cracking and/or deformation of the adjacent structure and attachment parts per the Accomplishment Instructions of the applicable service bulletin.

(i) If no cracking and/or deformation is found: Within 25 flight cycles after the inspection required by paragraph (b) of this AD, replace the sensor struts and attachment bolts per the Accomplishment Instructions of the applicable service bulletin. Repeat the inspection required by paragraph (a) of this AD thereafter at intervals not to exceed 18

months, until the requirements of paragraph (d) of this AD are accomplished.

(ii) If any cracking and/or deformation is found: Before further flight, repair per a method approved by either the Manager, International Branch, ANM-116, FAA, Transport Airplane Directorate; or the Direction Générale de l'Aviation Civile (or its delegated agent); and replace the sensor struts and attachment bolts per the Accomplishment Instructions of the applicable service bulletin. Repeat the inspection required by paragraph (a) of this AD thereafter at intervals not to exceed 18 months, until the requirements of paragraph (d) of this AD are accomplished.

Note 1: For the purposes of this AD, a detailed inspection is defined as: "An intensive visual examination of a specific structural area, system, installation, or assembly to detect damage, failure, or irregularity. Available lighting is normally supplemented with a direct source of good lighting at intensity deemed appropriate by the inspector. Inspection aids such as mirror, magnifying lenses, etc., may be used. Surface cleaning and elaborate access procedures may be required."

Concurrent Requirements

(c) The actions required by paragraphs (a) and (b) of this AD must be done before or concurrently with the requirements of paragraph (d) of this AD. Replacement of any sensor strut with a sensor strut having part number (P/N) F5757492600000, during accomplishment of paragraph (b) of this AD, is acceptable for compliance with paragraph (d) of this AD, for that strut.

Terminating Action

(d) Within 42 months after the effective date of this AD: Replace all existing sensor struts with new, improved sensor struts having P/N F5757492600000 per the Accomplishment Instructions of Airbus Service Bulletins A330-27-3092 (for Model A330 series airplanes); or A340-27-4098 (for Model A340-200 and -300 series airplanes); both dated February 14, 2003; as applicable. Accomplishment of this replacement constitutes terminating action for the repetitive inspections required by paragraphs (a) and (b) of this AD.

Credit for Actions Done per Previous Issue of Service Bulletins

(e) Accomplishment of the specified actions before the effective date of this AD per Airbus Service Bulletin A330-27-3091, dated February 2, 2002; Revision 01, dated May 17, 2002; or Revision 02, dated September 5, 2002; or A340-27-4097, dated February 6, 2002; Revision 01, dated May 17, 2002; or Revision 02, dated September 5, 2002; as applicable; is considered acceptable for compliance with the applicable requirements of paragraphs (a) and (b) of this AD.

Submission of Information Not Required

(f) Although the service bulletins specify to send inspection results to the manufacturer, those actions are not required by this AD.

Alternative Methods of Compliance

(g) In accordance with 14 CFR 39.19, the Manager, International Branch, ANM-116, FAA, Transport Airplane Directorate, is authorized to approve alternative methods of compliance for this AD.

Note 2: The subject of this AD is addressed in French airworthiness directives F-2003-425 and F-2003-426, both dated December 10, 2003.

Issued in Renton, Washington, on March 19, 2004.

Kevin M. Mullin,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

RIN 3235-AI92

First-Time Application of International Financial Reporting Standards; Correction

AGENCY: Securities and Exchange Commission.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects the file number in the preamble to a proposed amendment to Form 20-F published in the **Federal Register** of Thursday, March 18, 2004 (69 FR 12903) a one-time accommodation relating to financial statements prepared under International Financial Reporting Standards for foreign private issuers registered with the SEC. The file number should read as set forth above.

FOR FURTHER INFORMATION CONTACT:

Questions concerning this correction should be directed to Frances Sienkiewicz, Office of the Secretary, at (202) 942-7072.

Correction

In proposed amendment FR Doc. 04-5982, beginning on page 12903 in the issue of March 18, 2004, make the following corrections:

1. On page 12904, first column, in the **ADDRESSES** section, next to last line, revise "S7-13-04" to read "S7-15-04."

2. On page 12916, first column, in *E. Request for Comment* section, in the 17th and 13th lines from the bottom of that section, revise "S7-13-04" to read "S7-15-04."

Dated: March 18, 2004.

Margaret H. McFarland,

Deputy Secretary.

BILLING CODE 8010-01-P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 915

[IA-013-FOR]

Iowa Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM), are announcing receipt of a proposed amendment to the Iowa regulatory program (Iowa program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). Iowa proposes to revise its regulatory program by updating its adoption by reference of applicable portions of 30 CFR part 700 to End from the July 1, 1992, version to the July 1, 2002, version. Iowa intends to revise its program to be consistent with the corresponding Federal regulations.

This document gives the times and locations that the Iowa program and proposed amendment to that program are available for your inspection, the comment period during which you may submit written comments on the amendment, and the procedures that we will follow for the public hearing, if one is requested.

DATES: We will accept written comments on this amendment until 4 p.m., c.s.t., April 26, 2004. If requested,

we will hold a public hearing on the amendment on April 19, 2004. We will accept requests to speak at a hearing until 4 p.m., c.s.t. on April 9, 2004.

ADDRESSES: You should mail or hand deliver written comments and requests to speak at the hearing to Charles E. Sandberg, Mid-Continent Regional Coordinating Center, at the address listed below.

You may review copies of the Iowa program, this amendment, a listing of any scheduled public hearings, and all written comments received in response to this document at the addresses listed below during normal business hours, Monday through Friday, excluding holidays. You may receive one free copy of the amendment by contacting OSM's Mid-Continent Regional Coordinating Center.

Charles E. Sandberg, Mid-Continent Regional Coordinating Center, Office of Surface Mining, 501 Belle Street, Alton, Illinois 62002, Telephone: (618) 463-6460, Fax: (618) 463-6470. Iowa Department of Agriculture and Land Stewardship, Division of Soil Conservation, Henry A. Wallace Building, Des Moines, Iowa 50319, Telephone: (515) 281-5321.

FOR FURTHER INFORMATION CONTACT: Charles E. Sandberg, Mid-Continent Regional Coordinating Center. Telephone: (618) 463-6460.

SUPPLEMENTARY INFORMATION:

- I. Background on the Iowa Program
- II. Description of the Proposed Amendment
- III. Public Comment Procedures
- IV. Procedural Determinations

I. Background on the Iowa Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, "a State law which provides for the regulation of

surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act." See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Iowa program effective April 10, 1981. You can find background information on the Iowa program, including the Secretary's findings, the disposition of comments, and the conditions of approval, in the January 21, 1981, **Federal Register** (46 FR 5885). You can also find later actions concerning the Iowa program and program amendments at 30 CFR 915.10, 915.15, and 915.16.

II. Description of the Proposed Amendment

By letter dated February 24, 2004 (Administrative Record No. IA-448), Iowa sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). Iowa sent the amendment in response to a June 17, 1997, letter and an August 23, 2000, letter (Administrative Record Nos. IA-440 and IA-444, respectively) that we sent to Iowa in accordance with 30 CFR 732.17(c). Below is a summary of the changes proposed by Iowa. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES**.

A. Adoptions by Reference of 30 CFR Part 700 to End Revised as of July 1, 2002

Iowa proposes to update its adoption by reference of applicable sections of 30 CFR part 700 to End from the July 1, 1992, version to the July 1, 2002, version and to revise terms and cross-references, as required. The sections of Iowa's coal mining rules that are being revised in this manner are listed in the table below.

27 Iowa Administrative Code chapter 40, coal mining rules	Topic
27-40.1(1), 40.1(4)	Authority and scope.
27-40.3(207)	General.
27-40.4(207), 40.4(2), 40.4(3)	Permanent regulatory program and exemption for coal extraction incidental to the extraction of other minerals.
27-40.5(207)	Restrictions on financial interests of State employees.
27-40.6(207)	Exemptions for coal extraction incident to government—financed highway or other constructions.
27-40.7(207)	Protection of employees.
27-40.11(207)	Initial regulatory program.
27-40.12(207)	General performance standards—initial program.
27-40.13(207)	Special performance standards—initial program.
27-40.21(207), 40.21(4), 40.21(5), 40.21(6)	Areas designated by an Act of Congress.
27-40.22(207), 40.22(2)	Criteria for designating areas as unsuitable for surface coal mining operations.
27-40.23(207)	State procedures for designating areas unsuitable for surface coal mining operations.
27-40.30(207), 40.30(1), 40.30(4)	Requirements for coal exploration.
