

average of 900 cfs, effective as soon as possible. Additionally, Alcoa requests a temporary variance from the operating guides, at the Narrows reservoir, in order to balance outflows with the High Rock reservoir. Included with Alcoa's request were concurrences received from the Drought Management Team (DMT) established as a result of the 2002 drought. The DMT is comprised of state and federal resource agencies, Progress Energy, Duke Energy and High Rock Lake Association. On August 29, 2007, the Commission granted the licensee's requests, but reserved authority to require changes in project operation based upon comments received from this notice.
