National Agricultural Statistics Service

Title: Feral Swine Survey.

OMB Control Number: 0535–0256.

Summary of Collection: Authority to collect these data is authorized under 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276. On February 3, 1999, Executive Order 13112 was signed by President Clinton establishing the National Invasive Species Council. The Executive Order requires that a Council of Departments dealing with invasive species be created. Currently there are 13 Departments and Agencies on the Council. A benchmark survey was conducted in 2015 in 11 States (Alabama, Arkansas, California, Florida, Georgia, Louisiana, North Carolina, Mississippi, Missouri, South Carolina, and Texas). Target population within these states consisted of farm operations who have historically produced one or more of the following crops: Corn, soybeans, wheat, rice, peanuts or sorghum (Texas only).

In 2017, this survey will be conducted in Alabama, Arkansas, California, Florida, Georgia, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, and Texas, to measure the damage to livestock that is associated with the presence of feral swine. These States have high feral swine densities and a significant presence of cattle, hogs, sheep and/or goats.

Need and Use of the Information: The 2017 proposed initial survey will be used to create a benchmark to develop national and State estimates of the monetary loss of feral swine damage to agriculture, animal health, and property to producers of cattle, hogs, sheep and/or goats in each of the surveyed states. Information on feral swine control costs including hunting, trapping, use of fencing, or the use of repellents and the total net income for allowing the hunting of feral swine on their operations will also be collected. Without the survey, it would be impossible to measure the current level

of feral swine damage to American agriculture and livestock.

Description of Respondents: Farms.

Number of Respondents: 12,000.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 9,280.

Departmental Information Collection Clearance Officer.
