

same manner recommended by the Association of Home Appliance Manufacturers (AHAM) in its comment on Electrolux's petition. AHAM commented that the four-hour limitation of the test should commence when the defrost heater is initiated, rather than at the beginning of the second part of the two-part test period. AHAM stated that it has had discussions with its members regarding its proposed change, and is not aware of anyone who disagrees with its position.

DOE views this change to the test procedure as noncontroversial and does not anticipate any adverse comments. In fact, all comments received subsequent to issuance of the interim waiver were favorable to this change to the test procedure. At the same time as the publication of the direct final rule, DOE will issue a notice of proposed rulemaking (NPR) with the same amendment as contained in the direct final rule so that if adverse comments are received the comments can be addressed in a subsequent final rule based on the NPR.

Issued in Washington, DC, on March 25, 2002.

David K. Garman,

Assistant Secretary, Energy Efficiency and Renewable Energy.
