Agency Information Collection Activities: Extension of Existing Collection; Comment Request

ACTION: Request OMB Emergency Approval: Screening Requirements of Carriers; 1651–0122, File No. OMB–16.

The Department of Homeland Security (DHS) and the U.S. Customs and Border Protection (CBP) has submitted an emergency information collection request (ICR) utilizing emergency review procedures, to the Office of Management and Budget (OMB) for review and clearance in accordance with section 1320.13(a)(1)(ii) and (a)(2)(iii) of the Paperwork Reduction Act of 1995. The DHS has determined that it cannot reasonably comply with the normal clearance procedures under this part because normal clearance procedures are reasonably likely to prevent or disrupt the collection of information. Therefore, immediate OMB approval has been requested. If granted, the emergency approval is only valid for 180 days. ALL comments and/or questions pertaining to this pending request for emergency approval MUST be directed to OMB, Office of Information and Regulatory Affairs, Attention: Desk Officer, Department of Homeland Security, 725–17th Street, NW., Suite 10235, Washington, DC 20503; (202) 395–5806.

During the first 60 days of this same period, a regular review of this information collection is also being undertaken. During the regular review period, the DHS requests written comments and suggestions from the public and affected agencies concerning this information collection. Federal Emergency Management Agency

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the U.S. Fire Administration's National Fire Academy Long-term Course Evaluation Forms.

SUPPLEMENTARY INFORMATION: The data collection from the long-term evaluation

forms—one for students and one for the student's supervisor—will obtain course specific feedback regarding the impact of course content on job performance. This data is needed to improve instructional delivery and curriculum design. Demographic data are needed to identify differentials in course impact. The information collection also supports the Government Performance and Results Act and the Agency's Programming, Planning and Budgeting reporting requirements. In an effort to help minimize the burden of the collection of information on those who are to respond, the paper-based forms will be converted to an automated/electronic format that will allow for the electronic submission of responses. As such the respondent universe will increase due to the on-line availability of the forms and linkage to the current end-of-course evaluation form. By using an automated process, it is expected that the estimated cost associated with the processing of the forms will decrease.
