DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 539-015]

Lock 7 Partners, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a new major license for the Mother Ann Lee Hydroelectric Station Water Power Project No. 539, located on the Kentucky River in Mercer, Jessamine, and Garrard Counties, Kentucky, and has prepared an Environmental Assessment (EA) for the project. No federal land is occupied by project works or located within the project boundary.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that

would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.
