SUPPLEMENTARY INFORMATION:

I. Background

The mission of PHMSA is to protect people and the environment by advancing the safe transportation of energy products and other hazardous materials that are essential to our daily lives. PHMSA's mission includes prevention of the release of natural gas which releases methane into the atmosphere. PHMSA is aggressively pursuing the DOT Strategic Goals of Safety, Climate & Sustainability, and Transformation in efforts to be profiled during the informational public meeting. PHMSA will discuss with the public and industry how it is improving safety by issuing advisory bulletins based on lessons learned from events like the geohazard related failure which threatened the community of Satartia, Mississippi, and the crude oil spill following an anchor strike on an offshore pipeline near Long Beach, California. PHMSA will also discuss recent learnings related to hard spot analyses and challenges presented by pipeline flow reversals. The meeting will highlight technology transformations to combat climate change and keep aging pipeline infrastructure safe for use in transporting energy of the future.

Additionally, the NTSB recently recommended that PHMSA revise its regulations for potential impact radius (PIR) calculations and this meeting will provide the Agency an opportunity to gather input from both industry and public stakeholders. Ensuring PIR calculations fully consider the potential impacts to congested urban areas is particularly important and supports efforts to ensure equitable safety protections for all people.

The informational public meeting will continue a dialogue on the Agency's climate and energy transformation efforts, such as reducing methane emissions, and PHMSA's current role regarding carbon dioxide and hydrogen pipelines. PHMSA anticipates further discussion on these important matters in 2023.

The overall purpose of the informational public meeting is to share important safety information with the public and industry as well as gather input to inform future rulemaking decisions.

II. Informational Public Meeting Details and Agenda

The informational public meeting will take place in-person December 13–15, 2022, in Houston, Texas. During the meeting, PHMSA will review a variety of topics and invite participant input.

Following opening remarks, the webinar will address the following topics: (1) Recent and Potential Safety Advisories (Geohazard/Land Movement, Maritime Issues, Hard Spots, Flow Reversals); (2) The Future: Technology and New Regulatory Requirements (Technology Transfer: Innovative Tools That Can Be Used by Industry and PHMSA's New Regulation Implementation Process); (3) Failure Investigation Forum (Overview of Recent Accidents/Incidents and Common Enforcement Items Found During Incidents); (4) Potential Impact Radius (Discussion of Incident and NTSB Recommendation); and (5) The Future: Climate and Energy Transformation (Reducing Methane Emissions, Hydrogen and Hydrogen Blending, Carbon Dioxide/Carbon Capture, Utilization, and Storage.)

III. Public Participation

The informational meeting will be open to the public. Members of the public who wish to attend are requested to register on the meeting website and include their names and organization affiliation (see **ADDRESSES**). PHMSA is committed to providing all participants with equal access to these meetings. If you need special accommodations, please contact Jessica Appel by email at Jessica.Appel.ctr@dot.gov.

PHMSA is not always able to publish a notice in the **Federal Register** quickly enough to provide timely notification regarding last minute changes that impact a previously announced meeting. Therefore, individuals should check the meeting website listed in the **ADDRESSES** section of this notice regarding any possible changes.

Title: Reimbursement of Qualifying Adoption Expenses for Certain Veterans, VA Form 10-10152.

OMB Control Number: 2900-0860.

Type of Review: Extension of a currently approved collection.

Abstract: The VA’s authority to provide reimbursement of qualifying adoption expenses for certain covered Veterans is found in Section 236 of the Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2018, Public Law 115-141 (March 23, 2018) (the “2018 Act”) and Section 235 of the Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2019, Public Law 115-244 (September 21, 2018) (the “2019 Act”), which renewed and extended in nearly identical form Section 260 of the prior authorizing “2017 Act,” Public Law 114-223. VA has eliminated the section in the regulations that specifies an expiration date in order to accommodate

Congressional renewal and extension of this authority under subsequent appropriations law.

Veterans with a service-connected disability that results in their inability to procreate without the use of fertility treatments are authorized to receive reimbursement for certain adoption-related expenses for an adoption that is finalized after September 29, 2016 (the date the 2017 Act was enacted). To implement this benefit, VA uses VA Form 10-10152, paralleling DD 2675, which requires any Veteran requesting reimbursement of qualifying adoption expenses to submit the same types of evidence as required under similar DoD policy. VA Form 10-10152 was previously approved by OMB through the PRA clearance process, and VA now seeks a three-year extension of that approval of this information collection.

Affected Public: Individuals or households.

Estimated Annual Burden: 480 hours.

Estimated Average Burden per Respondent: 6 hours.

Frequency of Response: Once annually.

Estimated Number of Respondents: 80.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration/Data Governance Analytics, Department of Veterans Affairs.
