

Department of State (DOS) to obtain a visa. If travel authorization is approved, the approval establishes that the individual has obtained advance authorization to travel to the United States to seek a discretionary grant of parole, consistent with 8 CFR 212.5(f), but does not guarantee boarding or a specific processing disposition at a POE. Upon arrival at a U.S. POE, the traveler will be subject to inspection by a CBP officer, who will make a case-by-case processing disposition determination.

This collection of information is authorized by 8 U.S.C. 1103 and 1182(d)(5), and 8 CFR 212.5(f). DHS has also publicly announced the policy and accompanying collection on its website and has also published a **Federal Register** notice for each of the named countries.

CBP One™ collects the following information from the individual submitting a request for an advance authorization to travel to the United States to seek parole under this process:

1. Facial Photograph
2. Photo obtained from the passport or Chip on ePassport, where available
3. Alien Registration Number
4. First and Last Name
5. Date of Birth
6. Passport Number

Additionally, CBP further revised this collection through another emergency submission to allow individuals seeking to travel to the United States as part of the Family Reunification Parole (FRP) processes for certain nationals of Cuba,⁵ Haiti,⁶ Colombia,⁷ Guatemala,⁸ Honduras,⁹ and El Salvador¹⁰ to use the existing ATA capability to submit information to CBP. The FRP processes begin with an invitation being sent to a petitioner who previously received an approved Form I-130, *Petition for Alien Relative*, on behalf of the potential principal beneficiary, and if applicable, the beneficiary's accompanying derivative beneficiaries. The petitioner then submits a Form I-134A, *Online Request to be a Supporter and Declaration of Financial Support*, on behalf of the potential principal beneficiary, and if applicable, the beneficiary's accompanying derivative beneficiaries. For those petitioners whose Form I-134A is confirmed by USCIS, the beneficiaries will receive an email with instructions to create an online account with myUSCIS. There, the potential beneficiary will confirm

their biographic information and complete attestations, and then receive instructions to download the CBP One™ mobile application to continue through the process. USCIS will send the biographic information to CBP. Additionally, once the beneficiary completes their CBP One™ submission, utilizing the ATA capability, CBP will conduct vetting, and if appropriate, issue an advance authorization to travel. The information collected as part of these new processes is the same as that which is already collected from other populations through ATA. This information collection will facilitate the vetting of noncitizens seeking to obtain advance authorization to travel and will give air carriers that participate in CBP's DocVal program the ability to validate an approved travel authorization, facilitating generation of a noncitizen's boarding pass without having to use other manual validation processes.

New Changes

1. *Adding Uniting for Ukraine (U4U) respondent group to collection:* In response to the President's commitment to welcome 100,000 Ukrainian citizens and others fleeing Russia's aggression, DHS, in coordination with DOS, established the Uniting for Ukraine¹¹ (U4U) parole process on April 25, 2022. This process allows Ukrainian citizens and their qualifying family members the ability to submit certain personal information to USCIS and CBP to facilitate the issuance of an advance authorization to travel to the United States to seek parole. At the time U4U was implemented, full ATA capability was not yet developed and CBP uses different processes to screen and vet Ukrainians seeking parole. Currently, individuals seeking to travel under U4U do not utilize CBP One™ or the ATA capability during their process. To align U4U with the other DHS parole processes, including CHNV and FRP, the ATA capability will be implemented for those individuals requesting authorization to fly directly to the United States to seek a discretionary grant of parole. The ATA capability will be added as part of a step in the U4U process to facilitate the vetting of noncitizens seeking to obtain advance authorization to travel and will give air carriers that participate in CBP's DocVal program the ability to validate an approved travel authorization, facilitating generation of a noncitizen's boarding pass without having to use other manual validation processes.

2. *Adjusted Burden:* Furthermore, coinciding with USCIS, CBP has added to the burden estimate for this collection, to account for any potential expansion(s) that align with new or revised policies or processing capacity over the next three years.

3. *New Data Element:* This revision also adds a new data element to this collection; the physical location (longitude/latitude) at the time of any biometric information submission. This data element will further secure the submission process and provide accurate identity information for completion of vetting in advance of issuance of a travel authorization.

CBP invites comments from the public on all changes established by previously approved emergency submissions and the new proposed revisions listed in this FRN.
