[Docket No. FD 36146]

Bayway Terminal Switching Company, L.L.C.—Modified Certificate of Public Convenience and Necessity

On September 5, 2017, Bayway Terminal Switching Company, L.L.C. (BTSC),¹ a noncarrier, filed a notice for a modified certificate of public convenience and necessity under 49 CFR pt. 1150 subpart C—*Modified Certificate of Public Convenience and Necessity*, to permit BTSC to operate over a rail line owned by the state of New Jersey. The rail line is located between milepost 3.15 (East Linden Avenue) and milepost 4.56 in Union County, NJ (the Line).²

BTSC states that the abandonment of the Line was previously authorized by the Interstate Commerce Commission in *Staten Island Railway—Abandonment*, AB 263 (Sub-No. 3) (ICC served Dec. 5, 1991) and *Rahway Valley Railroad—Abandonment—Between Aldene & Summit in Union County, N.J.*, AB 211 (ICC served Aug. 27, 1992).

According to BTSC, it will commence contract carrier switching services for four customers located on the Line pursuant to a Railcar Switching Agreement (Agreement). BTSC states that the four customers are Phillips 66 Company (Phillips), Infineum USA L.P., Veolia North America Regeneration Services, LLC, and Solutia Inc. According to BTSC, it is seeking this modified certificate so that it can provide common carrier switching services should anyone request such service in the future. BTSC states that the Agreement has a term of five years subject to extensions by agreement of the parties. BTSC further states that Phillips is entering into an agreement with the state of New Jersey, which will give Phillips custody of the Line.³

¹ BTSC is a subsidiary of Watco Transportation Services, L.L.C., which, in turn, is a subsidiary of Watco Holdings, Inc.

² The Line, along with other rail lines, was previously operated by the Morristown & Erie Railway, Inc. See *Morristown & Erie Ry.—Modified Rail Certificate*, FD 34054 (STB served July 5, 2002).

³ On April 25, 2018, BTSC supplemented its Notice by submitting copies of the agreement between BTSC and Phillips and the agreement between Phillips and the state of New Jersey.

According to BTSC, it will interchange with Consolidated Rail Corporation (Conrail), pursuant to an Interchange Agreement, as a contract switching carrier at the Bayway Industrial Track (Bayway I.T.); the connecting track between the Bayway I.T./Simmons Lead and Bayway Yard and Track No. 4 of Bayway Yard; or, such other location to be agreed upon by BTSC and Conrail.

The Line qualifies for a modified certificate of public convenience and necessity. See *Common Carrier Status of States, State Agencies & Instrumentalities & Political Subdivisions*, FD 28990F (ICC served July 16, 1981); 49 CFR 1150.22.

BTSC states that no subsidy is involved and that there are no preconditions for shippers to meet to receive rail service. BTSC's notice also includes a certificate of liability insurance coverage. (See Notice Ex. 2.)

This notice will be served on the Association of American Railroads (Car Service Division), as agent for all railroads subscribing to the car-service and car-hire agreement, at 425 Third Street SW, Suite 1000, Washington, DC 20024; and on the American Short Line and Regional Railroad Association at 50 F Street NW, Suite 7020, Washington, DC 20001.

Decided: May 15, 2018.

By the Board, Scott M. Zimmerman, Acting Director, Office of Proceedings.

Brendetta Jones,
Clearance Clerk.
