

415–4737, or by email to pdr.resource@nrc.gov. The IDHEAS–ECA research information letter (RIL) is available in ADAMS under Accession No. ML20016A481.

• **Attention:** The PDR, where you may examine and order copies of public documents, is currently closed. You may submit your request to the PDR via email at pdr.resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (EST), Monday through Friday, except Federal holidays.

B. Submitting Comments

The NRC encourages electronic comment submission through the Federal Rulemaking website (<https://www.regulations.gov>). Please include Docket ID NRC–2021–0089 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

The NRC has developed the IDHEAS–ECA human reliability analysis (HRA) method with a plan to replace the SPAR–H HRA method (NUREG/CR–6883) currently in use for risk-informed applications. The IDHEA–ECA method was developed based on the IDHEAS–G methodology, Draft, NUREG–2198, “The General Methodology of an Integrated Human Event Analysis System (IDHEAS–G)” (ADAMS Accession No. ML20238B988). IDHEAS–G provides all technical components required to develop application-specific HRA methods. IDHEAS–ECA modifies some of the technical components for the event condition assessment of the significance determination process. The NRC collects human reliability data to support the IDHEAS–ECA development. The data is documented in the

Integrated Human Event Analysis System for Human Reliability Data (IDHEAS–DATA) report, Draft RIL–2021–XX, “Integrated Human Event Analysis System for Human Reliability Data (IDHEAS–DATA)” (ADAMS Accession No. ML20238B982). An important data source to the IDHEAS–DATA is the NRC’s Scenario Authoring, Characterization, and Debriefing Application (SACADA) project, is available in ADAMS under Accession No. ML17164A077, that collects operator performance information in simulator training. The IDHEAS–G, IDHEAS–DATA, and SACADA are foundation of IDHEAS–ECA.

III. Specific Considerations

IDHEAS–ECA is currently published as a RIL and is planned to be published as a NUREG report after addressing the public comments from this **Federal Register** notice. IDHEAS–ECA is an HRA method. The software tool (IDHEAS–ECA v1.1) is used to perform the calculations of the IDHEAS–ECA method. The NRC developed the IDHEAS–ECA software tool in-house and has all the rights to distribute the software licenses. The software is available for all U.S. citizens, but its availability to foreign citizens is decided on a case by case. To obtain a copy of the software, send an email to Y. James Chang (James.Chang@nrc.gov) on the subject line state “Request for IDHEAS–ECA software license.” In the email include the requestor’s name, email address, company, and nationality. Once the NRC determines to issue the free software license to the requester, the requester will receive an email from Dropbox, along with the instruction to download the software.

IV. Public Meeting

The NRC plans to hold a public meeting during the public comment period for this action. A public meeting is planned for April 8, 2021, via webinar. The NRC will present information about IDHEAS–G, IDHEAS–DATA, SACADA, and IDHEAS–ECA method and software tool during the public meeting. The information would facilitate having a holistic understanding of the IDHEAS–ECA development.

The public meeting will provide a forum for the NRC staff to discuss issues and questions with members of the public. The NRC does not intend to provide any responses to comments submitted during the public meeting. The public meeting will be noticed on the NRC’s public meeting website at least 10 calendar days before the meeting. Members of the public should

monitor the NRC’s public meeting website for additional information about the public meetings at <https://www.nrc.gov/public-involve/public-meetings/index.cfm>. The NRC will post the notices for the public meetings and webinars and may post additional material related to this action to the Federal Rulemaking website at <https://www.regulations.gov/> under Docket ID NRC–2021–0089. The Federal Rulemaking website allows you to receive alerts when changes or additions occur in a docket folder. To subscribe: (1) Navigate to the docket folder (NRC–2021–0089); (2) click the “Sign up for Email Alerts” link; and (3) enter your email address and select how frequently you would like to receive emails (daily, weekly, or monthly).

Dated: April 5, 2021.

For the Nuclear Regulatory Commission.

Sean E. Peters,

Chief, Human Factors and Reliability Branch, Division of Risk Analysis, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–P

POSTAL SERVICE

Product Change—First-Class Package Service Negotiated Service Agreement

AGENCY: Postal Service™.

ACTION: Notice.

SUMMARY: The Postal Service gives notice of filing a request with the Postal Regulatory Commission to add a domestic shipping services contract to the list of Negotiated Service Agreements in the Mail Classification Schedule’s Competitive Products List.

DATES: *Date of required notice:* April 8, 2021.

FOR FURTHER INFORMATION CONTACT:

Sean Robinson, 202–268–8405.

SUPPLEMENTARY INFORMATION: The United States Postal Service® hereby gives notice that, pursuant to 39 U.S.C. 3642 and 3632(b)(3), on March 29, 2021, it filed with the Postal Regulatory Commission a *USPS Request to Add First-Class Package Service Contract 115 to Competitive Product List*. Documents are available at www.prc.gov, Docket Nos. MC2021–79, CP2021–82.

Sean Robinson,

Attorney, Corporate and Postal Business Law.
