I. General Information

A. Does this action apply to me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](https://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI

information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low-income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, EPA seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. Registration Applications

EPA has received applications to register new uses for pesticide products containing currently registered active ingredients. Pursuant to the provisions of FIFRA section 3(c)(4) (7 U.S.C. 136a(c)(4)), EPA is hereby providing notice of receipt and opportunity to comment on these applications. Notice of receipt of these applications does not imply a decision by EPA on these applications. EPA received the following applications to register new uses for pesticide products containing currently registered active ingredients:

1. *EPA Registration Number:* 100–1469. *Docket ID number:* EPA–HQ–OPP–2019–0691. *Applicant:* Syngenta Crop Protection, LLC, 410 South Swing Rd., Greensboro, NC 27409. *Active ingredient:* *Aspergillus flavus* strain NRRL 21882. *Product type:* Fungicide. *Proposed use:* All food and feed commodities of almond; corn, field; corn, pop; corn, sweet; peanut; and pistachio. Note: In the **Federal Register** of March 2, 2020 (85 FR 12285) (FRL–10004–59), EPA announced receipt of an application to amend this pesticide

product to add applications to almond and pistachio as new uses. Since that time, the applicant provided an associated petition to amend the currently existing *Aspergillus flavus* strain NRRL 21882 tolerance exemption to cover all food and feed commodities of almond; corn, field; corn, pop; corn, sweet; peanut; and pistachio. Although the applicant is still proposing to amend the pesticide product to add only applications to almond and pistachio as new uses (applications to corn and peanut are already registered uses), EPA is republishing its receipt of this application to make it clear that all the food and feed commodities of the aforementioned crops are intended be covered with applications of the product and to give the public an opportunity to comment on this clarifying information.

2. *EPA Registration Number:* 279–3618. *Docket ID number:* EPA–HQ–OPP–2017–0187. *Applicant:* FMC Corporation, 2929 Walnut St., Philadelphia, PA 19104. *Active ingredients:* *Bacillus licheniformis* strain FMCH001 and *Bacillus subtilis* strain FMCH002. *Product type:* Fungicide and nematicide. *Proposed use:* In-furrow application. Note: In the **Federal Register** of May 5, 2020 (85 FR 26684) (FRL–10008–46), EPA announced receipt of an application to amend this pesticide product to add seed treatment as a new use. Since that time, EPA noticed that it presented the new use as seed treatment instead of in-furrow application. In order to give the public an opportunity to comment on this corrected information, EPA is republishing its receipt of this application with an updated and accurate description.
