AMS currently has approval from the Office of Management and Budget (OMB) for this information collection. This approval is for 60,000 burden hours, based on our initial request to OMB in April 2011. We are requesting that the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 0.50 hours per response.

Respondents: Individuals and households; businesses and organizations; State, local, or Tribal government.

Estimated Annual Number of Respondents: 110,000.

Estimated Number of Responses: 110,000.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 60,000 (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

Comments: Comments are invited on: (1) Whether the proposed collection of the information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

Submission for OMB Review; Comment Request

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13 on or after the date of publication of this notice. Comments are requested regarding: (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by July 15, 2024. Written comments and recommendations for the proposed information collection should be submitted, identified by docket number 0535-0264, within 30 days of the publication of this notice by any of the following methods:

- *Email:* ombofficer@nass.usda.gov. Include docket number above in the subject line of the message.
- *E-fax:* 855-838-6382.
- *Mail:* Mail any paper, disk, or CD-ROM submissions to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336, South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.
- *Hand Delivery/Courier:* Hand deliver to: Richard Hopper, NASS Clearance Officer, U.S. Department of Agriculture, Room 5336, South Building, 1400 Independence Avenue SW, Washington, DC 20250-2024.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Land Leasing Survey in Oklahoma.

OMB Control Number: 0535-0264.

Summary of Collection: The primary objectives of the National Agricultural Statistics Service (NASS) are to prepare and issue official State and national estimates of crop and livestock production, disposition and prices, economic statistics, and environmental statistics related to agriculture and to conduct the Census of Agriculture and its follow-on surveys. NASS will conduct a survey of agricultural operations in Oklahoma. Selected farmers will be asked to provide data on rent & acreage as well as form of the lease agreement for operations with the following lease agreements: (1) cash rent for selected crops, (2) share rent, (3) pasture leases, winter grazing, and recreational leases. General authority for these data collection activities is granted under U.S.C. Title 7, Section 2204.

Need and Use of the Information: Oklahoma State University, as well as many farmers and ranchers in Oklahoma, have been interested in land rental rates for agricultural operations in greater detail than what is provided in the Cash Rents and Leases Survey used to satisfy the requirement originally specified in the 2008 Farm Bill and conducted under Office of Management and Budget approval number 0535-0002.

To assist producers with this data need, the Oklahoma State University, Department of Agricultural Economics (OSU-DAE), has been collecting and publishing statistical estimates biennially for more than 30 years—before USDA-NASS was tasked with the Cash Rents County Estimates. The OSU-DAE obtained statistics to assist producers in making sound rental agreements. Due to the diverse nature of the state, OSU-DAE felt it necessary to provide more descriptive land breakouts such as pasture estimates into native pasture and improved pasture due to large price differences and input costs associated with each type of pasture.

The NASS Oklahoma Field Office routinely receives data requests from data users specific to land leasing rates. While NASS does typically have county and state level cash rents data available for data users, many times they are looking for more detail on the breakout of pastureland or cropland. In Oklahoma, improved grasses for pastureland tend to bring above average rates due to the delivered output, and the same applies to some cropland.

Description of Respondents: Farmers and ranchers in Oklahoma.
Number of Respondents: 2,700.
Frequency of Responses: Reporting: One a year.
Total Burden Hours: 1,022.

Departmental Information Collection Clearance Officer.
