**Proposed Project: Grantee Data Reporting System for the Rural Health Outreach Grant Program (RHOGP): New**

The Rural Health Outreach Grant Program (RHOGP) is one of the major grant programs managed and funded by the Office of Rural Health Policy, Health

Resources and Services Administration. The overall objectives of the program are to expand access to, coordinate, restrain the cost of, and improve the quality of essential health care services, including preventive and emergency services, through the development of integrated health care delivery systems or networks in rural areas and regions. While each project has different objectives and activities, all grantee projects involve the use of Networks of three or more organizations working together to improve health care in their communities. Projects may be carried out by networks of the same providers (e.g., all hospitals) or more diversified networks.

The proposed data collection instruments are intended to strengthen the Office of Rural Health Policy's (ORHP) Outreach Grant Program's existing grantee evaluation process and grantee data collection. This information collection activity will provide ORHP with an increased capacity for monitoring and evaluation and will permit the efficient review of the grant projects in relation to HRSA's strategic objectives.

The estimated response burden is as follows:

Form	Number of respondents	Responses per respondent	Hours per response	Total burden hours
Grantee Reporting Form .....	53	1	8	424
Year 1 Progress Report .....	140	1	8	1120
Year 2 Progress Report .....	140	1	8	1120
