

l. *Description of Request*: The licensee is proposing to surrender its exemption. The project operated until 2018 when significant repairs necessitated an extended outage until now. SSWD evaluated repair along with future operations and maintenance costs for the project, and concluded that the project is no longer economical, especially since the power purchase contract with Pacific Gas and Electric expired on October 14, 2019. The facilities would remain in place, except for the turbine-generator units which would be removed.
