SUPPLEMENTARY INFORMATION:

I. Abstract

The Transactions of U.S. Affiliate, Except a U.S. Banking Affiliate, with Foreign Parent (Form BE–605) and Transactions of U.S. Banking Affiliate with Foreign Parent (Form BE–605 Bank) obtain quarterly sample data on transactions and positions between foreign-owned U.S. business enterprises and their “affiliated foreign groups” (*i.e.*, their foreign parents and foreign affiliates of their foreign parents). The data collected are used in the preparation of the U.S. international transactions accounts, national income and product accounts, and input-output accounts. The data are needed to measure the amount of foreign direct investment in the United States, monitor changes in such investment, assess its impact on the U.S. and foreign economies and, based upon this assessment, make informed policy decisions regarding foreign direct investment in the United States.

BEA proposes the following changes to the survey: (1) To maintain consistency of the U.S. international transactions accounts with current international statistical standards, collect information on payments to and receipts from the foreign parent and foreign affiliates of the foreign parent gross of any taxes withheld. Previously, the information was collected net of taxes withheld. (2) To avoid potential duplication, modify the instructions for the survey to instruct respondents to exclude positions and transactions in financial derivatives contracts that are to be reported on or derived from information reported to the Federal Reserve Bank of New York on the new Treasury International Capital Form D, Report of Holdings of, and Transactions in, Financial Derivatives Contracts with
