National Highway Traffic Safety Administration

[Docket No. NHTSA–2008–0144]

Notice of Receipt of Petitions for Decision That Nonconforming 1997–2001 Jeep Cherokee Multipurpose Passenger Vehicles Are Eligible for Importation

AGENCY: National Highway Traffic Safety Administration, DOT.

ACTION: Notice of receipt of petitions for decision that nonconforming 1997–2001 Jeep Cherokee multipurpose passenger vehicles are eligible for importation.

SUMMARY: This document announces receipt by the National Highway Traffic Safety Administration (NHTSA) of two petitions for a decision that certain 1997–2001 Jeep Cherokee multipurpose passenger vehicles (MPVs) that were not originally manufactured to comply with all applicable Federal motor vehicle safety standards (FMVSS) are eligible for importation into the United States because (1) they are substantially similar to vehicles that were originally manufactured for sale in the United States and that were certified by their manufacturer as complying with the safety standards, and (2) they are capable of being readily altered to conform to the standards.

DATES: The closing date for comments on the petitions is October 17, 2008.

ADDRESSES: Comments should refer to the docket and notice numbers above and be submitted by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(A), a motor vehicle that was not originally manufactured to conform to all applicable FMVSS shall be refused admission into the United States unless NHTSA has decided that the motor vehicle is substantially similar to a motor vehicle originally manufactured for sale in the United States, certified under 49 U.S.C. 30115, and of the same model year as the model of the motor vehicle to be compared, and is capable of being readily altered to conform to all applicable FMVSS.

Petitions for eligibility decisions may be submitted by either manufacturers or

importers who have registered with NHTSA pursuant to 49 CFR part 592. As specified in 49 CFR 593.7, NHTSA publishes notice in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

Auto Boutique, Ltd., of Costa Mesa, California (ABL) (Registered Importer 08-356), petitioned NHTSA to decide whether 1997-2001 Japanese market right-hand drive (RHD) Jeep Cherokee MPVs are eligible for importation into the United States. Shortly after ABL's petition was filed, U.S. Drive Right (USDR), of Spring Arbor, Michigan (Registered Importer 08-355) separately petitioned NHTSA to decide whether 1997 and 1998 RHD and left-hand drive (LHD) Jeep Cherokee MPVs are eligible for importation into the United States. Because the two petitions both pertain to the 1997 and 1998 RHD Jeep Cherokee MPVs, NHTSA is soliciting comments on both petitions in this notice. The vehicles that ABL and USDR believe to be substantially similar are corresponding model year Jeep Cherokee MPVs that were manufactured for sale in the United States and certified by their manufacturer as conforming to all applicable FMVSS.

Both petitioners stated that they compared corresponding year non-U.S. certified Jeep Cherokee MPVs to their U.S.-certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most FMVSS.

ABL submitted information with its petition intended to demonstrate that non-U.S. certified 1997-2001 RHD Jeep Cherokee MPVs, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, ABL claims that non-U.S. certified 1997-2001 RHD Jeep Cherokee MPVs are identical to their U.S.-certified counterparts with respect to compliance with Standard Nos. 101 *Controls and Displays*, 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic and Electric Brake Systems*, 106 *Brake Hoses*, 108 *Lamps, Reflective Devices and*

Associated Equipment, 111 *Rearview Mirrors*, 113 *Hood Latch System*, 114 *Theft Protection*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 119 *New Pneumatic Tires for Vehicles Other than Passenger Cars*, 120 *Tire Selection and Rims for Motor Vehicles Other than Passenger Cars*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 208 *Occupant Crash Protection*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 225 *Child Restraint Anchorage Systems*, 301 *Fuel System Integrity*, and 302 *Flammability of Interior Materials*.

ABL additionally states that a vehicle identification plate must be affixed to the vehicles near the left windshield post to meet the requirements of 49 CFR part 565.

USDR submitted information with its petition intended to demonstrate that non-U.S. certified 1997 and 1998 RHD and LHD Jeep Cherokee MPVs, as originally manufactured, conform to many FMVSS in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the USDR claims that non-U.S. certified 1997 and 1998 RHD and LHD Jeep Cherokee MPVs are identical to their U.S.-certified counterparts with respect to compliance with Standard Nos. 102 *Transmission Shift Lever Sequence, Starter Interlock, and Transmission Braking Effect*, 103 *Windshield Defrosting and Defogging Systems*, 104 *Windshield Wiping and Washing Systems*, 105 *Hydraulic and Electric Brake Systems*, 106 *Brake Hoses*, 111 *Rearview Mirrors*, 113 *Hood Latch System*, 114 *Theft Protection*, 116 *Motor Vehicle Brake Fluids*, 118 *Power-Operated Window, Partition, and Roof Panel Systems*, 119 *New Pneumatic Tires for Vehicles Other than Passenger Cars*, 124 *Accelerator Control Systems*, 201 *Occupant Protection in Interior Impact*, 202 *Head Restraints*, 204 *Steering Control Rearward Displacement*, 205 *Glazing Materials*, 206 *Door Locks and Door Retention Components*, 207 *Seating Systems*, 209 *Seat Belt Assemblies*, 210 *Seat Belt Assembly Anchorages*, 212 *Windshield Mounting*, 214 *Side Impact Protection*, 216 *Roof Crush Resistance*, 219 *Windshield Zone Intrusion*, 301 *Fuel*

System Integrity, and 302 Flammability of Interior Materials.

USDR also contends that the vehicles are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 101 *Controls and Displays*: Replacement or conversion of the speedometer to read in miles per hour.

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: Installation of U.S.-model (1) headlamps; (2) front and rear mounted side marker lamps; (3) front and rear mounted side reflex reflectors; (4) rear mounted reflex reflectors; and (5) tail lamps.

Standard No. 120 *Tire Selection and Rims for Motor Vehicles Other than Passenger Cars*: Installation of a tire information placard.

Standard No. 208 *Occupant Crash Protection*: Inspection of all vehicles and replacement of any non-U.S.-model seat belt audible warning system and telltale components with U.S. model components on vehicles that are not already so equipped.

USDR states that the vehicle's restraint system components include airbags and combination lap and shoulder belts at the front outboard designated seating positions and combination lap and shoulder belts at the rear outboard designated seating positions. USDR also states that the rear center seating position is equipped with a lap belt.

USDR additionally states that a vehicle identification plate must be affixed to the vehicles near the left windshield post to meet the requirements of 49 CFR part 565.

All comments received before the close of business on the closing date

indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petitions will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: September 11, 2008.

DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

Office of Hazardous Materials Safety; Notice of Applications for Modification of Special Permit

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: List of Applications for Modification of Special Permit.

SUMMARY: In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations (49 CFR Part 107, Subpart B), notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. This notice is abbreviated to expedite docketing and public notice.

Because the sections affected, modes of transportation, and the nature of application have been shown in earlier **Federal Register** publications, they are not repeated here. Request of modifications of special permits (e.g. to provide for additional hazardous materials, packaging design changes, additional mode of transportation, etc.) are described in footnotes to the application number. Application numbers with the suffix "M" denote a modification request. There applications have been separated from the new application for special permits to facilitate processing.

DATES: Comments must be received on or before October 2, 2008.

ADDRESS COMMENTS TO: Record Center, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, Washington, DC 20590.

Comments should refer to the application number and be submitted in triplicate. If confirmation of receipt of comments is desired, include a self-addressed stamped postcard showing the special permit number.

FOR FURTHER INFORMATION CONTACT:

Copies of the applications are available for inspection in the Records Center, East Building, PHH-30, 1200 New Jersey Avenue Southeast, Washington DC or at <http://dms.dot.gov>.

This notice of receipt of applications for modification of special permit is published in accordance with Part 107 of the Federal hazardous materials transportation law (49 U.S.C. 5117(b); 49 CFR 1.53(b)).

Issued in Washington, DC, on September 10, 2008.

Delmer F. Billings,

Director, Office of Hazardous Materials, Special Permits and Approvals.
