The Commission may extend the period for issuing an order approving or disapproving the proposed rule change, however, by not more than 60 days if the Commission determines that a longer period is appropriate and publishes the reasons for such determination. SUPPLEMENTARY INFORMATION: For SBA financial assistance programs, SBA Form 413 Personal Financial Statement (PFS) collects information regarding the assets and liabilities of certain owners, officers and guarantors of the small business applicant benefiting from such assistance and is used when analyzing the applicant's repayment abilities or creditworthiness. SBA's Surety Bond Guaranty Program uses the Form 413 PFS information during the claim recovery process. The information is also collected from applicants and participants in SBA's 8(a)/BD and Women-Owned Small Business (WOSB) Program certification process to determine whether they meet the economic disadvantage requirements of the program.

SBA currently has four versions of the Form 413 PFS. The Agency plans to consolidate and streamline these into one Form 413 which will be used across the various program offices. SBA plans to expand and clarify the instructions for the Form 413 to ensure the public will be aware of the specific submission process for each program office. Lastly, the Form 413 may undergo significant formatting changes to make it easier to address mandatory Federal government 508 accessibility compliance.

II. Background

On October 8, 2020, FMCSA published a **Federal Register** notice (85 FR 21061) announcing receipt of applications from two individuals treated with ICDs and requested comments from the public. These five individuals requested an exemption from 49 CFR 391.41(b)(4) which prohibits operation of a CMV in interstate commerce by persons with a current clinical diagnosis of myocardial infarction, angina pectoris, coronary insufficiency, thrombosis, or any other cardiovascular disease of a variety known to be accompanied by syncope, dyspnea, collapse, or congestive heart failure. The public comment period closed on November 9, 2020, and two comments were received.

FMCSA has evaluated the eligibility of these applicants and concluded that granting these two exemption requests would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with § 391.41(b)(4). A summary of each applicant's medical history related to their ICD exemption request was discussed in the October 8, 2020, **Federal Register** notice and will not be repeated here.

The Agency's decision regarding these exemption applications is based on information from the Cardiovascular Medical Advisory Criteria, an April 2007, evidence report titled "Cardiovascular Disease and Commercial Motor Vehicle Driver
