4. Except as provided in provision 7 below, title shall revert to the United States upon a finding, after notice and opportunity for a hearing, that, without the approval of the Secretary of the Interior or his delegate, the patentee or its approved successor attempts to transfer title to or control over the lands to another, the lands have been devoted to a use other than that for which the lands were conveyed, the lands have not been used for the purpose for which the lands were conveyed for a 5-year period, or the patentee has failed to follow the approved development plan or management plan.

5. An appropriate indemnification clause protecting the United States from claims arising out of the patentee's use, occupancy, or occupation on the leased/patented lands.

6. If, at any time, the patentee transfers to another party ownership of any portion of the land not used for the

purpose(s) specified in the application and approved plan of development, the patentee shall pay the BLM the fair market value, as determined by the authorized officer, of the transferred portion as of the date of transfer, including the value of any improvements thereon.

Classification Comments: Interested persons may submit comments involving the suitability of the land for development and use as a shooting range. Comments on the classification are restricted to whether the land is physically suited for the proposal, whether the use will maximize the future use or uses of the land, whether the use is consistent with local planning and zoning, or if the use is consistent with state and Federal programs.

Application Comments: Interested persons may submit comments regarding the specific use proposed in the application and plan of development and management, and whether the BLM followed proper administrative procedures in reaching the decision to convey under the R&PP Act.
