## FEDERAL COMMUNICATIONS COMMISSION

[FR ID: 194271]

### Privacy Act of 1974; System of Records

**AGENCY:** Federal Communications Commission.

**ACTION:** Notice of a modified system of records.

**SUMMARY:** The Federal Communications Commission (FCC, Commission, or Agency) proposes to modify an existing system of records, FCC/OMD–24, Physical Access Control System (PACS), subject to the Privacy Act of 1974, as amended. This action is necessary to

meet the requirements of the Privacy Act to publish in the **Federal Register** notice of the existence and character of records maintained by the agency. The Commission uses this system to maintain records on those individuals to whom the FCC has issued credentials. This modification makes various necessary changes and updates, including formatting changes required by the Office of Management and Budget (OMB) Circular A–108 since its previous publication, the addition of three new routine uses, and the revision of five existing routine uses.

**DATES:** This modified system of records will become effective on December 29, 2023. Written comments on the routine uses are due by January 29, 2024. The routine uses in this action will become effective on January 29, 2024 unless comments are received that require a contrary determination.

**ADDRESSES:** Send comments to Brendan McTaggart, Attorney-Advisor, Office of General Counsel, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, or to [privacy@fcc.gov](mailto:privacy@fcc.gov).

**FOR FURTHER INFORMATION CONTACT:** Brendan McTaggart, (202) 418–1738, or [privacy@fcc.gov](mailto:privacy@fcc.gov) (and to obtain a copy of the Narrative Statement and the Supplementary Document, which includes details of the modifications to this system of records).

**SUPPLEMENTARY INFORMATION:** This notice serves to update and modify FCC/OMD–24, as a result of various necessary changes and updates. The substantive changes and modifications to the previously published version of the FCC/OMD–24 system of records include:

1. Updating the language in the Security Classification to follow OMB guidance.

2. Updating the language in the Purposes section to be consistent with the language and phrasing currently used generally in the FCC's SORNs and to reflect how the system is currently used (e.g., the system no longer covers frequent visitors, credit union employees, restaurant employees, or parking permit data).

3. Modifying the language in the Categories of Individuals and Categories of Records for clarity; and for consistency with the current uses of the system (which now excludes frequent visitors, credit union employees, restaurant employees, and parking permit data) and with the language and phrasing currently used in the FCC's SORNs.

4. Updating and/or revising language in five routine uses (listed by current

routine use number): (1) Litigation; (2) Adjudication; (3) Law Enforcement and Investigation; (4) Congressional Inquiries; and (5) Government-wide Program Management and Oversight.

5. Adding three new routine uses (listed by current routine use number): (11) Breach Notification, the addition of which is as required by OMB Memorandum No. M–17–12; (12) Assistance to Federal Agencies and Entities Related to Breaches, the addition of which is required by OMB Memorandum No. M–17–12; and (13) Non-Federal Personnel.

6. Updating the SORN to include the relevant National Archives and Records Administration (NARA) records schedules.

The system of records is also updated to reflect various administrative changes related to the system managers and system addresses; policy and practices for storage and retrieval of the information; administrative, technical, and physical safeguards; and updated notification, records access, and contesting records procedures.
