

Wisconsin. The Agricultural Marketing Agreement Act of 1937 was designed to permit regulation of certain agricultural commodities for the purpose of providing orderly marketing conditions in inter and intrastate commerce and improving returns to growers. The primary objective of the Order is to stabilize the supply of tart cherries. Only tart cherries that will be canned or frozen will be regulated. The Order is administered by an 18 member Board comprised of producers, handlers and one public member, plus alternates for each. The members will serve for a three-year term of office.

Need and Use of the Information:

Various forms were developed by the Board for persons to file required information relating to tart cherry inventories, shipments, diversions and other needed information to effectively carry out the requirements of the Order. The information collected is used to ensure compliance, verify eligibility, and vote on amendments, monitor and record grower's information. Authorized Board employees and the industry are the primary users of the information. If information were not collected, it would eliminate needed data to keep the industry and the Secretary abreast of changes at the State and local level.

Description of Respondents: Business or other for-profit; not-for-profit institutions.

Number of Respondents: 640.

Frequency of Responses: Reporting: Annually; quarterly; on occasion.

Total Burden Hours: 727.

Charlene Parker,

Departmental Information Collection Clearance Officer.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

October 25, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be

collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by November 29, 2013 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20502. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Highly Pathogenic Avian Influenza, All Subtypes, and Newcastle Disease; Additional Restrictions.

OMB Control Number: 0579-0245.

Summary of Collection: The Animal Health Protection Act (AHPA), 7 U.S.C 8301, is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The agency charged with carrying out this disease prevention mission is the Animal and Plant Health Inspection Service (APHIS), through its Veterinary Services (VS) Program. Highly pathogenic avian influenza (HPAI) and Newcastle Disease are extremely infectious and often fatal disease affecting all types of birds and poultry.

Need and Use of the Information: To protect the United States against an incursion of HPAI and Newcastle Disease, APHIS requires the use of several information collection activities, including an USDA-APHIS-VS Application For Permit To Import or Transport Controlled Materials or

Organisms or Vectors (VS Form 16-3); a United States Veterinary Permit for Importation and Transportation of Controlled Materials and Organisms and Vectors (VS Form 16-6A); an Application for Approval or Report of Inspection Establishment Handling Restricted Animal Byproducts or Controlled Materials (VS Form 16-25); USDA-APHIS-VS Agreement for Handling Restricted Imports of Animal By-Products and Controlled Materials (VS Form 16-26); USDA-APHIS-VS Report of Entry, Shipment of Restricted Imported Animal Products and Animal By-Products, and Other Material (VS Form 16-78); USDA-APHIS-VS Application for Import or in Transit Permit (Animals, Animal Semen, Animal Embryos, Birds, Poultry, and Hatching Eggs) (VS Form 17-129); USDA-APHIS Agreement of Pet Bird Owner (VS Form 17-8); application of seals and agreements; notarized declaration or affirmation; notification of signs of disease in a recently imported bird; cooperative service agreements, and recordkeeping by processing establishments. APHIS will collect information to ensure that U.S. birds and poultry undergo appropriate examinations before entering the United States. Without the information, it would be impossible for APHIS to establish an effective line of defense against an introduction of HPAI and Newcastle Disease.

Description of Respondents:

Individuals or households; Business or other for-profit; Not-for-profit institutions; Federal Government.

Number of Respondents: 1,680.

Frequency of Responses: Reporting and Recordkeeping; On occasion.

Total Burden Hours: 1,055.

Ruth Brown,

Departmental Information Collection Clearance Officer.
