(c) Under 34 CFR 75.250(b), the Secretary may provide a grantee with additional funding for data collection analysis and reporting. In this case the Secretary establishes a data collection period.

5. *Performance Measures:* Under the Government Performance and Results Act of 1993, the Department has developed three measures to evaluate the overall effectiveness of the CGSA program:

(1) The percentage of grantees, for each grant cycle, that demonstrate significant progress towards improving, developing, or implementing a new model for measuring the achievement of students.

(2) The percentage of grantees, for each grant cycle, that demonstrate collaboration with institutions of higher education, other research institutions, or other organizations to develop or improve State assessments.

(3) The percentage of grantees that, at least three times during the period of their grants, make available to SEA staff

in non-participating States and to assessment researchers information on findings resulting from the CGSA program through presentations at national conferences, publications in refereed journals, or other products disseminated to the assessment community.

Grantees will be expected to include in their interim and final performance reports information about the accomplishments of their projects.
