

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2015-040]

Agency Information Collection Activities: Submission for OMB Review; Comment Request**AGENCY:** National Archives and Records Administration (NARA).**ACTION:** Notice.

SUMMARY: NARA gives public notice that it has submitted to OMB for approval the information collection described in this notice. We invite the public to comment on the proposed information collection pursuant to the Paperwork Reduction Act of 1995.

DATES: Submit any written comments to OMB at the address below on or before June 5, 2015.

ADDRESSES: Send comments to Mr. Nicholas A. Fraser, Desk Officer for NARA, by mail to Office of Management and Budget; New Executive Office Building; Washington, DC 20503; by fax to 202-395-5167, or by email to Nicholas_A_Fraser@omb.eop.gov.

FOR FURTHER INFORMATION CONTACT: Contact Tamee Fechhelm by telephone at 301-837-1694 or by fax at 301-713-7409 with requests for additional information or copies of the proposed information collection and supporting statement.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), NARA invites the public and other Federal agencies to comment on proposed information collections. NARA published a notice of proposed collection for this information collection on February 18, 2015 (80 FR 8700 and 8701). We received one comment, noting that the word “qualified” (used twice on the bottom of page 1 of NA Form 17003) was used to describe an auditor’s opinion. The term “qualified” was replaced with the word “modified” a couple of years ago during the accounting profession’s update of standards. As a result of this comment, NARA changed the two instances of the word “qualified” with the word “modified” on NA Form 17003. We have now submitted the described information collection to OMB for approval.

In response to this notice, comments and suggestions should address one or more of the following points: (a) Whether the proposed information collection is necessary for NARA to properly perform its functions; (b) NARA’s estimate of the burden of the proposed information collection and its accuracy; (c) ways NARA could enhance

the quality, utility, and clarity of the information it collects; (d) ways NARA could minimize the burden on respondents of collecting the information, including through information technology; and (e) whether this collection affects small businesses. In this notice, NARA solicits comments concerning the following information collection:

Title: Accounting System and Financial Capability Questionnaire.
OMB number: 3095-0072.

Agency form numbers: NA Form 17003.

Type of review: Regular.

Affected public: Not-for-profit institutions and state, local, or Tribal government.

Estimated number of respondents: 75.

Estimated time per response: 4 hours.

Frequency of response: On occasion.

Estimated total annual burden hours: 300.

Abstract: Pursuant to Title 2, Section 215 of the Code of Federal Regulations, Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (formerly Office of Management and Budget (OMB) Circular A-110) and Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, grant recipients are required to maintain adequate accounting controls and systems in managing and administering Federal funds. Some of the recipients of grants from the National Historical Publications and Records Commission (NHPRC) have proven to have limited experience with managing Federal funds. This questionnaire is designed to identify those potential recipients and provide appropriate training or additional safeguards for Federal funds. Additionally, the questionnaire serves as a pre-audit function in identifying potential deficiencies and minimizing the risk of fraud, waste, abuse, or mismanagement, which we use in lieu of a more costly and time-consuming formal pre-award audit.

Dated: April 29, 2015.

Swarnali Haldar,

Executive for Information Services/CIO.

NATIONAL SCIENCE FOUNDATION**Notice of Intent To Seek Approval To Extend an Information Collection**

AGENCY: National Science Foundation.

ACTION: Notice and Request for Comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF

will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years.

DATES: Written comments on this notice must be received by July 6, 2015 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

For Additional Information or Comments: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292-7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays). You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

SUPPLEMENTARY INFORMATION:

Title of Collection: Grantee Reporting Requirements for Science and Technology Centers (STC): Integrative Partnerships.

OMB Number: 3145-0194.

Expiration Date of Approval: September 30, 2015.

Type of Request: Intent to seek approval to extend an information collection.

Abstract

Proposed Project: The Science and Technology Centers (STC): Integrative Partnerships Program supports innovation in the integrative conduct of research, education and knowledge transfer. Science and Technology Centers build intellectual and physical infrastructure within and between disciplines, weaving together knowledge creation, knowledge integration, and knowledge transfer. STCs conduct world-class research through partnerships of academic institutions, national laboratories, industrial organizations, and/or other public/private entities. New knowledge thus created is meaningfully linked to society.

STCs enable and foster excellent education, integrate research and education, and create bonds between learning and inquiry so that discovery and creativity more fully support the learning process. STCs capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

Centers selected will be required to submit annual reports on progress and

plans, which will be used as a basis for performance review and determining the level of continued funding. To support this review and the management of a Center, STCs will be required to develop a set of management and performance indicators for submission annually to NSF via an NSF evaluation technical assistance contractor. These indicators are both quantitative and descriptive and may include, for example, the characteristics of center personnel and students; sources of financial support and in-kind support; expenditures by operational component; characteristics of industrial and/or other sector participation; research activities; education activities; knowledge transfer activities; patents, licenses; publications; degrees granted to students involved in Center activities; descriptions of significant advances and other outcomes of the STC effort. Part of this reporting will take the form of a database which will be owned by the institution and eventually made available to an evaluation contractor. This database will capture specific information to demonstrate progress towards achieving the goals of the program. Such reporting requirements will be included in the cooperative agreement which is binding between the academic institution and the NSF.

Each Center's annual report will address the following categories of activities: (1) Research, (2) education, (3) knowledge transfer, (4) partnerships, (5) diversity, (6) management and (7) budget issues.

For each of the categories the report will describe overall objectives for the year, problems the Center has encountered in making progress towards goals, anticipated problems in the following year, and specific outputs and outcomes.

Use of the Information: NSF will use the information to continue funding of the Centers, and to evaluate the progress of the program.

Estimate of Burden: 100 hours per center for seventeen centers for a total of 1700 hours.

Respondents: Non-profit institutions; federal government.

Estimated Number of Responses per Report: One from each of the seventeen centers.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity

of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: April 30, 2015.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-302; NRC-2015-0115]

Duke Energy Florida, Inc.; Crystal River Nuclear Generating Plant, Unit 3

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an exemption from certain power reactor liability insurance requirements in response to a request from Duke Energy Florida, Inc. (DEF or the licensee) dated February 25, 2014, as supplemented by letter dated May 7, 2014. This exemption would permit the licensee to reduce its primary offsite liability insurance and withdraw from participation in the secondary retrospective rating pool for deferred premium charges.

DATES: May 6, 2015.

ADDRESSES: Please refer to Docket ID NRC-2015-0115 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:
