Estimated Total Annual Burden: 77,916 hours.

Total Annual Costs: No cost.

Needs and Uses: This notice and request for comments seeks to establish a new information collection as it pertains to the Advanced Methods to Target and Eliminate Unlawful Robocalls Sixth Report and Order and Call Authentication Trust Anchor Fifth Report and Order (“Gateway Provider Report and Order”). Unwanted and illegal robocalls have long been the Federal Communication Commission’s (“Commission”) top source of consumer complaints and one of the Commission’s top consumer protection priorities. Foreign-originated robocalls represent a significant portion of illegal robocalls, and gateway providers serve as a critical choke-point for reducing the number of illegal robocalls received by American consumers. In the Gateway Provider Report and Order, the Commission took steps to prevent these foreign-originated illegal robocalls from reaching consumers and to help track these calls back to the source. Along with further extension of the Commission’s caller ID authentication requirements and Robocall Mitigation Database filing requirements, the Commission adopted several robocall mitigation requirements, including a requirement for gateway providers to respond to traceback within 24 hours, mandatory blocking requirements, a “know your upstream provider” requirement, and a general mitigation requirement.

Gateway Provider Report and Order, FCC 22–37, Paras. 65–71, 47 CFR 64.1200(n)(1)

A voice service provider must: . . . Upon receipt of a traceback request from the Commission, civil law enforcement, criminal law enforcement, or the industry traceback consortium:

(i) If the provider is an originating, terminating, or non-gateway intermediate provider for all calls specified in the traceback request, the provider must respond fully and in a timely manner;

(ii) If the provider receiving a traceback request is the gateway provider for any calls specified in the traceback request, the provider must fully respond to the traceback request within 24 hours of receipt of the request. The 24-hour clock does not start outside of business hours, and requests received during that time are deemed received at 8:00 a.m. on the next business day. If the 24-hour response period would end on a non-business day, either a weekend or a federal legal holiday, the 24-hour clock does not run for the weekend or holiday in question, and restarts at 12:01 a.m. on the next business day following when the request would otherwise be due. For example, a request received at 3:00 p.m. on a Friday will be due at 3:00 p.m. on the following Monday, assuming that Monday is not a federal legal holiday. For purposes of this rule, “business day” is defined as Monday through Friday, excluding federal legal holidays, and “business hours” is defined as 8:00 a.m. to 5:30 p.m. on a business day. For purposes of this rule, all times are local time for the office that is required to respond to the request.

The first portion of the new information collection for which OMB approval is sought comes from the requirement adopted in the Gateway Provider Report and Order that all voice service providers respond to traceback “fully and in a timely manner” and gateway providers must respond within 24 hours. All voice service providers, including gateway providers are required to respond to traceback requests from the Commission, civil and criminal law enforcement, and the Industry Traceback Consortium. Traceback is a key enforcement tool in the fight against illegal calls, allowing the Commission or law enforcement to identify the caller and bring enforcement actions or otherwise stop future calls before they reach consumers. Any unnecessary delay in the process can increase the risk that this essential information may become impossible to obtain. While traceback is

not a new process, some providers have historically been reluctant to respond, or have simply ignored requests. This requirement ensures that all providers are on notice that a response is required, and allows real consequences for refusal.
