SUPPLEMENTARY INFORMATION:

I. Abstract

This is a request for extension of an existing information collection.

NOAA's Office of National Marine Sanctuaries administers the Dr. Nancy Foster Scholarship Program, authorized by 16 U.S.C. 1445c–1 and 16 U.S.C. 1445, recognizes outstanding achievement in master's and doctoral degrees in oceanography, marine biology, or maritime archaeology—this can include but is not limited to ocean and/or coastal: engineering, social science, marine education, marine stewardship, resource management disciplines—and particularly to encourage women and members of minority groups to apply. The scholarship supports independent graduate level research through financial support of graduate degrees in such fields. Gender and minority status are not considered when selecting award recipients. However, special outreach efforts are employed to solicit applications from women and members of minority groups. Scholarships are distributed by disciplines, institutions, and geography, and by degree sought, with selections within distributions based on financial need, the potential for success in a graduate level studies program (academic achievement), and the potential for achieving research and career goals. Data collection in the form of a full application, letters of

recommendation, grade point average documents, research outline, a letter of financial need statement, and a declaration statement are all required to apply for the scholarship. Applicants submit this information through *Grants.gov* system. This information is used for the review and selection of the individuals who will receive scholarship funds.

Selected awardees will also be requested to prepare a biographical sketch and photograph for NOAA's scholarship web page. Awardees are requested to prepare annual progress reports and participate in pre- and post-evaluations and one exit interview.

II. Method of Collection

Information for the application is collected through an application submission, either electronically through the *Grants.gov* platform or if internet is not available, applicants may submit applications via mail. Information from selected awardees is collected orally.
