Drawbridge Operation Regulations: Harlem River, NY

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is changing the drawbridge operating regulations which govern the Metro North (Park Avenue) Bridge, at mile 2.1, across the Harlem River at New York City, New York. This final rule will allow the bridge owner to require a four-hour advance notice for bridge openings, from 10 a.m. to 5 p.m., daily. This action is expected to meet the present needs of navigation.

DATES: This rule is effective January 3, 2002.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket (CGD01–01–048) and are available for inspection or copying at the First Coast Guard District, Bridge Branch Office, 408 Atlantic Avenue, Boston, Massachusetts 02110, 7 a.m. to 3 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mr. Jose Arca, Project Officer, First Coast Guard District, (212) 668–7165.

SUPPLEMENTARY INFORMATION:

Regulatory Information

On September 13, 2001, we published a notice of proposed rulemaking (NPRM) entitled Drawbridge Operation Regulations; Harlem River, New York, in the **Federal Register** (66 FR 47601). We received no comment letters in response to the notice of proposed rulemaking. No public hearing was requested and none was held.

Background and Purpose

The Metro North (Park Avenue) Bridge, at mile 2.1, across the Harlem River, has a vertical clearance of 25 feet at mean high water and 30 feet at mean low water. The existing drawbridge operation regulations listed at 33 CFR 117.789(e) require the bridge to open on signal, from 10 a.m. to 5 p.m., except as provided in paragraph (b).

The owner of the bridge, Metro North, requested a change to the operating regulations to allow the bridge to open on signal, from 10 a.m. to 5 p.m., after a four-hour advance notice is given.

Metro North advised the Coast Guard that all the bridge openings during the last five years were for either vessel traffic employed in the construction of the Oak Point Link railroad Bridge located upstream or Metro North test openings at the bridge. The large construction barges, with equipment such as cranes on board, generally require a bridge opening.

The vessels that frequently use this waterway on a regular basis fit under the bridges without requiring bridge openings, with the exception of the Spuyten Duyvil railroad bridge, which has only 5 feet of vertical clearance at mean high water. All the upstream bridges, with the exception of the Spuyten Duyvil railroad bridge, presently require a four-hour advance notice for bridge openings, from 10 a.m. to 5 p.m., daily.

The existing drawbridge operation regulations are consistent with regard to the four-hour advance notice requirement, from 10 a.m. to 5 p.m., daily.

In addition, all the bridges, except Spuyten Duyvil, have similar or greater vertical clearances at mean high water (MHW) and at mean low water (MLW). The clearances for the bridges on the Harlem River are as follows.

Bridge name	Mile	MHW & MLW	
Metro North (Park Ave)	2.1	25	30
Madison Avenue	2.3	25	29
145 Street	2.8	25	30
Macombs Dam	3.2	27	32
207 Street	6.0	26	30
Broadway	6.8	24	29
Spuyten Duyvil ..	7.9	5	9

As a result of all the above information the Coast Guard believes that it is reasonable to allow the Metro North (Park Avenue) railroad bridge to open on signal, from 10 a.m. to 5 p.m., after a four-hour advance notice is given, except as provided in paragraph (b).

Discussion of Comments and Changes

The Coast Guard received no comment letters. No changes will be made to this final rule.

Regulatory Evaluation

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Transportation (DOT)

(44 FR 11040; February 26, 1979). This conclusion is based on the fact that the bridge will continue to open for vessel traffic after the advance notice is given.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612) we considered whether this rule would have a significant economic impact on a substantial number of small entities. “Small entities” comprises small businesses, not-for profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations less than 50,000.

The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities. This conclusion is based on the fact that the bridge will open on signal after the advance notice is given.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

We have analyzed this rule under Executive Order 13132 and have determined that this rule does not have implications for federalism under that Order.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) governs the issuance of Federal regulations that require unfunded mandates. An unfunded mandate is a regulation that requires a State, local, or tribal government or the private sector to incur direct costs without the Federal Government’s having first provided the funds to pay those unfunded mandate costs. This rule will not impose an unfunded mandate.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under E.O. 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of E.O. 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden

Protection of Children

We have analyzed this rule under E.O. 13045, Protection of Children from

Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not concern an environmental risk to health or risk to safety that may disproportionately affect children.

Environment

The Coast Guard considered the environmental impact of this rule and concluded that under figure 2–1, paragraph (32)(e) of Commandant Instruction M16475.1C, this rule is categorically excluded from further environmental documentation because promulgation of changes to drawbridge regulations have been found to not have a significant effect on the environment. A written “Categorical Exclusion Determination” is not required for this final rule.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

List of Subjects in 33 CFR Part 117

Bridges.

Regulations

For the reasons set out in the preamble, the Coast Guard amends 33 CFR part 117 as follows:

PART 117—DRAWBRIDGE OPERATION REGULATIONS

1. The authority citation for part 117 continues to read as follows:

Authority: 33 U.S.C. 499; 49 CFR 1.46; 33 CFR 1.05–1(g); section 117.255 also issued

under the authority of Pub. L. 102–587, 106 Stat. 5039.

2. Section 117.789 is amended by revising paragraph (e) to read as follows:

§ 117.789 Harlem River

* * * * *

(e) The draw of the Metro North (Park Avenue) Bridge, mile 2.1, shall open on signal, except as provided in paragraph (b) of this section, from 10 a.m. to 5 p.m., if at least a four-hour advance notice is given by calling the number posted at the bridge.

33 CFR Part 117

CGD08–98–020

RIN 2115–AE47

Drawbridge Operation Regulations: Missouri River

AGENCY: Coast Guard, DOT.

ACTION: Final rule.

SUMMARY: The Coast Guard is revising the regulations governing the operation of the drawbridges across the Missouri River in the States of Missouri, Iowa, Kansas, and Nebraska. The revisions will enable the Coast Guard to coordinate drawbridge operation schedules for these bridges during the winter season with the Army Corps of Engineers’ (ACOE) dates of closure and opening of the commercial navigation season on the Missouri River.

DATES: This final rule is effective January 3, 2002.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket CGD8–98–020 and are available for inspection or copying at Coast Guard District Eight Bridge Branch, 1222 Spruce Street, Suite 2.107f, St. Louis, MO 63103–2832, between 8 a.m. and 4 p.m. Monday through Friday, except Federal Holidays.
