

large power transformers from Korea. These antidumping duties will be assessed on unliquidated entries of large power transformers from Korea entered, or withdrawn from warehouse, for consumption on or after February 16, 2012, the date on which the Department published its *Preliminary Determination*,<sup>1</sup> but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC's final injury determination as further described below.

### Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct CBP to continue to suspend liquidation on all entries of large power transformers from Korea. We will also instruct CBP to require cash deposits equal to the estimated amount by which the normal value exceeds the U.S. price as indicated below. These instructions suspending liquidation will remain in effect until further notice.

Accordingly, effective on the date of publication of the ITC's final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins listed below. See section 736(a)(3) of the Act.

### Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of exporters that account for a significant proportion of large power transformers from Korea, we extended the four-month period to no more than six months. See letters to the Department from Hyosung Corporation and Hyundai Heavy Industries, dated December 22, 2011 and January 5, 2012, respectively. In the underlying investigation, the Department published the *Preliminary Determination* on February 16, 2012. See *Preliminary Determination*. Therefore, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended

on August 13, 2012. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of large power transformers from Korea entered, or withdrawn from warehouse, for consumption after August 13, 2012, the date provisional measures expired, until and through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**. Suspension of liquidation will resume on the date of publication of the ITC's final injury determination in the **Federal Register**.

The weighted-average dumping margins are as follows:

Manufacturer/Exporter	Weighted-Average margin (percent)
Hyundai Heavy Industries Co., Ltd. ....	14.95
Hyosung Corporation .....	29.04
All Others .....	22.00

This notice constitutes the antidumping duty order with respect to large power transformers from Korea pursuant to section 736(a) of the Act. Interested parties can find an updated list of antidumping duty orders currently in effect at <http://ia.ita.doc.gov/stats/iastats1.html>.

This order is published in accordance with section 736(a) of the Act and 19 CFR 351.211.

Dated: August 27, 2012.
