SUPPLEMENTARY INFORMATION: The information collection is under the requirements of FERC-523,

"Applications for Authorization for Issuance of Securities or the Assumption of Liabilities", OMB Control No. 1902-0043.

Under Federal Power Act (FPA) section 204, 16 U.S.C. 824c, no public utility or licensee shall issue any security, or assume any obligation or liability as guarantor, endorser, surety, or otherwise in respect of any security of another person, until the public utility applies for and receives Commission approval by order authorizing the issue or assumption of the liability. The Commission issues an order if it finds that such issue or assumption (a) is for lawful object, within the corporate purposes of the applicant and compatible with the public interest, which is necessary or appropriate for or consistent with the proper performance by the applicant as a public utility and which will not impair its ability to perform that service, and (b) is reasonably necessary or appropriate for such purposes.

The Commission uses the information contained in filings to determine its acceptance and/or rejection of applications for authorization to either issue securities or to assume an obligation or liability by the public utilities and their licensees who make these applications.

The Commission implements this statute through its regulations, which are found at 18 CFR Part 34; and 18 CFR sections 131.43 and 131.50. Part 131 prescribes the required filing format. The information is filed electronically.

Action: The Commission is requesting a three-year extension of the current expiration date with no changes to the current reporting requirements.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of responses annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1) × (2) × (3)
78	1.7	88	11,669

The estimated total cost to respondents is \$798,721 [11,669 hours/2,080 hours¹ per year, times \$142,372² equals \$798,721]. The cost per respondent annually is \$10,240. This is an increase from 60 to currently 78

utilities filing annually. An increase from 1 to 1.7 filings per utility annually was also seen. The Commission considers this a normal fluctuation due to market activities and filing times chosen. Utilities files periodically, therefore the number of filings are expected to continue to fluctuate from year-to-year.

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, using technology and systems for the purposes of collecting, validating, verifying, processing, maintaining,

¹ Number of hours an employee works each year.
