

comment refers to Docket No. APHIS-2010-0061.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at (<http://www.aphis.usda.gov>).

FOR FURTHER INFORMATION CONTACT: Mr. David B. Lamb, Import Specialist, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1231; (301) 734-0627.

SUPPLEMENTARY INFORMATION:

Background

Under the regulations in “Subpart—Regulated Articles From Hawaii and the Territories” (7 CFR 318.13-1 through 318.13-26, referred to below as the regulations), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture prohibits or restricts the interstate movement of fruits and vegetables into the United States from Hawaii, Puerto Rico, the U.S. Virgin Islands, Guam, and the Commonwealth of the Northern Mariana Islands to prevent plant pests and noxious weeds from being introduced into and spread within the continental United States. (The continental United States is defined in § 318.13-2 of the regulations as the 48 contiguous States, Alaska, and the District of Columbia.)

Section 318.13-4 contains a performance-based process for approving the interstate movement of commodities that, based on the findings of a pest risk analysis, can be safely imported subject to one or more of the designated phytosanitary measures listed in paragraph (b) of that section. These measures are:

- The fruits and vegetables are inspected in the State of origin or in the first State of arrival;

- The fruits and vegetables originated from a pest-free area in the State of origin and the grower from which the fruit or vegetable originated has entered into a compliance agreement with the Administrator;

- The fruits and vegetables are treated in accordance with 7 CFR part 305 and the treatment is certified by an inspector;

- The fruits and vegetables articles are inspected and certified in the State of origin by an inspector and have been found free of one or more specific quarantine pests identified by risk analysis as likely to follow the pathway;

- The fruits and vegetables are moved as commercial consignments only; and/or

- The fruits and vegetables may be distributed only within a defined area and the boxes or containers in which the fruits or vegetables are distributed must be marked to indicate the applicable distribution restrictions.

APHIS received a request from the Hawaii Department of Agriculture to allow the interstate movement of fresh guava fruit from Hawaii to the continental United States. We have completed a pest list to identify pests of quarantine significance that could follow the pathway of interstate movement into the continental United States and, based on that pest list, have prepared a risk management analysis to identify phytosanitary measures that could be applied to the commodity to mitigate the pest risk. We have concluded that guavas can be safely moved from Hawaii to the continental United States using one or more of the six designated phytosanitary measures listed in § 318.13-4(b). Therefore, in accordance with § 318.13-4(c), we are announcing the availability of our pest risk analysis for public review and comment. The pest risk analysis may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for instructions for accessing Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the pest risk analysis by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the pest risk analysis when requesting copies.

After reviewing the comments we receive, we will announce our decision regarding the interstate movement of guavas from Hawaii to the continental United States in a subsequent notice. If the overall conclusions of the analysis and the Administrator's determination of risk remain unchanged following our consideration of the comments, then we will begin allowing the interstate movement of guavas from Hawaii to the continental United States subject to the requirements specified in the risk management document.

Authority: 7 U.S.C. 7701-7772 and 7781-7786; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 18th day of August 2010.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-S

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

[Docket No. APHIS-2010-0059]

Notice of Availability of a Treatment Evaluation Document

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that we have determined that it is necessary to revise a treatment schedule in the Plant Protection and Quarantine Treatment Manual and to retain the current treatment schedule with a different treatment number. We have prepared a treatment evaluation document that discusses the existing treatment schedule, describes the new treatment schedule, and explains why these change are necessary. We are making the treatment evaluation document available to the public for review and comment.

DATES: We will consider all comments that we receive on or before **October 25, 2010**.

ADDRESSES: You may submit comments by either of the following methods:

- Federal eRulemaking Portal: Go to (<http://www.regulations.gov/fdmspublic/component/main?main=DocketDetail&d=APHIS-2010-0059>) to submit or view comments and to view supporting and related materials available electronically.

- Postal Mail/Commercial Delivery: Please send one copy of your comment to Docket No. APHIS-2010-0059, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238. Please state that your comment refers to Docket No. APHIS-2010-0059.

Reading Room: You may read any comments that we receive on this docket in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you,

please call (202) 690-2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at (<http://www.aphis.usda.gov>).

FOR FURTHER INFORMATION CONTACT: Dr. Inder P. S. Gadh, Senior Risk Manager—Treatments, Regulations, Permits, and Manuals, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1236; (301) 734-8758.

SUPPLEMENTARY INFORMATION:

Background

The regulations in 7 CFR chapter III are intended, among other things, to prevent the introduction or dissemination of plant pests and noxious weeds into or within the United States. Under the regulations, certain plants, fruits, vegetables, and other articles must be treated before they may be moved into the United States or interstate. The phytosanitary treatments regulations contained in part 305 of 7 CFR chapter III (referred to below as the regulations) set out standards for treatments required in parts 301, 318, and 319 of 7 CFR chapter III for fruits, vegetables, and other articles.

In § 305.2, paragraph (b) states that approved treatment schedules are set out in the Plant Protection and Quarantine (PPQ) Treatment Manual.^a Section 305.3 sets out a process for adding, revising, or removing treatment schedules in the PPQ Treatment Manual. In that section, paragraph (a) sets out the process for adding, revising, or removing treatment schedules when there is no immediate need to make a change. The circumstances in which an immediate need exists are described in § 305.3(b)(1).

In accordance with § 305.3(a)(1), we are providing notice that we have determined that it is necessary to revise treatment schedule T314-a, which provides a heat treatment schedule for ash logs, including firewood, and all hardwood firewood that are moved from emerald ash borer quarantined areas. We have also determined that it is necessary to retain the current T314-a as a general treatment for various wood pests (rather than just emerald ash borer); we would redesignate this treatment schedule as T314-c in the Treatment Manual.

The reasons for these changes are described in a treatment evaluation

document we have prepared to support this action. The treatment evaluation document may be viewed on the Regulations.gov Web site or in our reading room (see **ADDRESSES** above for instructions for accessing Regulations.gov and information on the location and hours of the reading room). You may request paper copies of the treatment evaluation document by calling or writing to the person listed under **FOR FURTHER INFORMATION CONTACT**. Please refer to the subject of the treatment evaluation document when requesting copies.

After reviewing the comments we receive, we will announce our decision regarding the changes to the Treatment Manual that are described in the treatment evaluation document in a subsequent notice. If our determination that it is necessary to revise T314-a and add a new T314-c remains unchanged following our consideration of the comments, then we will make available a new version of the PPQ Treatment Manual that reflects the revision of T314-a and the addition of T314-c.

Authority: 7 U.S.C. 7701-7772 and 7781-7786; 21 U.S.C. 136 and 136a; 7 CFR 2.22, 2.80, and 371.3.

Done in Washington, DC, this 18th day of August 2010.

Kevin Shea

Acting Administrator, Animal and Plant Health Inspection Service.

BILLING CODE 3410-34-S

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Region Amendment 80 Permits and Reports.

OMB Control Number: 0648-0565.

Form Number(s): NA.

Type of Request: Regular submission (extension of a currently approved information collection).

Number of Respondents: 38.

Average Hours per Response:

Applications for cooperative quota share, for cooperative and cooperative quota permit, and for limited access fishery permit, 2 hours; applications to transfer quota share and cooperative

quota, 2 hours; annual cooperative report, 25 hours; appeals, 4 hours.

Burden Hours: 155.

Needs and Uses: This request is for extension of a currently approved information collection. Amendment 80 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (BSAI FMP), primarily allocates BSAI non-pollock trawl groundfish fisheries among fishing sectors and facilitates the formation of harvesting cooperatives in the head-and-gut trawl catcher/processor sector. Sector allocations and associated cooperatives allow participants to focus less on harvest rate maximization and more on optimizing their harvest. This, in turn, allows a reduction in unwanted incidental catch, improved retention, improved utilization, and improved economic health of the head-and-gut trawl catcher/processor sector. Amendment 80 established a limited access privilege program for the non-American Fisheries Act trawl catcher/processor sector.

The Amendment 80 permits and reports collection provides participants with a management system that allows for improved efficiency by providing an environment in which, revenues can be increased and operating costs can be reduced. Depending on the magnitude of these potential efficiency gains and the costs of bycatch reduction, increases in efficiency could be used to cover the costs of bycatch reduction measures or provide additional benefits to participants.

Licenses and vessels used to qualify for the Amendment 80 Program (either to be included in the non-AFA trawl catcher/processor sector or to be used in Amendment 80 cooperative formation) are restricted from being used outside of the Amendment 80 sector, except that any eligible vessel authorized to fish pollock under the AFA would still be authorized to fish under this statute.

Fishery participants that join a cooperative receive an exclusive harvest privilege not subject to harvest by other vessel operators; may consolidate fishing operations on a specific vessel or subset of vessels, thereby reducing monitoring and enforcement and other operational costs; and harvest fish in a more economically efficient and less wasteful manner.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek,

^a The Treatment Manual is available on the Internet at (http://www.aphis.usda.gov/import_export/plants/manuals/index.shtml) or by contacting the Animal and Plant Health Inspection Service, Plant Protection and Quarantine, Manuals Unit, 92 Thomas Johnson Drive, Suite 200, Frederick, MD 21702.
