

performed by Gryphon Scientific, will be posted prior to the meeting. Please check this Web site for updates.

Public Comments: Many presentations and panel discussions at the meeting will be accompanied by question and answer periods that are open to members of the public, time permitting. In addition, there will also be time allotted on the agenda for the presentation of public comments. Members of the public interested in presenting prepared comments relevant to the mission of the NSABB should indicate so upon registration. Sign-up for delivering prepared oral comments will be limited to one per person or organization representative per open comment period. Individual presentations will be time-limited to facilitate broad participation from multiple speakers. Participants viewing the meeting by webcast may submit questions and comments during the meeting via email sent to nsabb@od.nih.gov. While time constraints and the volume of questions may not allow for all questions and comments submitted via email to be aired during the meeting, all relevant correspondence received will be relayed to the Board. Emailed correspondence should include the name, contact information, and when applicable, professional affiliation of the sender.

In addition, interested persons may file written comments at any time with the Board via an email sent to nsabb@od.nih.gov or by regular mail sent to the Contact Person listed on this notice. Written statements should include the name, contact information, and when applicable, the professional affiliation of the interested person. Written comments received by 5:00 p.m. Eastern on December 31, 2015, will be relayed to the Board prior to the NSABB meeting. Any written comments received after this deadline will be provided to the Board either before or after the meeting, depending on the volume of comments received and the time required to process them in accordance with privacy regulations and other applicable Federal policies.

Please Note: In the interest of security, NIH has instituted stringent procedures for entrance onto the NIH campus. All visitor vehicles, including taxis, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit. Please visit the NIH Visitor Security page for important security and campus access information.
