I. Background

The Institute of Museum and Library Services is the primary source of federal support for the Nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.imls.gov.

II. Current Actions

The Museums for Digital Learning Project (<https://museumsfordigitallearning.org/>) has created an online resource providing K-12 educators with access to authentic collections-based museum resources for use in and outside the classroom. The project is supported through a cooperative agreement between IMLS and History Colorado, and partners include the Field Museum of Natural History and the Indianapolis Museum of Art at Newfields. The project's content is searchable by curriculum standards, grade level, and subject matter. Its Resource Kits include activities such as narratives, hotspots, slideshows, annotations, and timelines.

In this data collection, independent external evaluators will solicit feedback on the ease of use, usefulness, and recommended changes and impact of the Resource Kits from participating museum educators and staff, K-12 teachers, homeschooling parents, and grade 4-12 students. In addition, project team members will be queried to assess how well their team is collaborating and making suggestions for the project's continued improvement. This information collection is exempt from the federal regulations governing research with human subjects [45 CFR 46.201(l)] through Exemption Categories 1 and 5 and is being confirmed as such through a separate Institutional Review Board process conducted during the 60-day review.
