

comment closing date, in Room 815, FAA Headquarters Building, 800 Independence Avenue, SW., Washington, DC 20591, weekdays except Federal holidays, between 8:30 a.m. and 4:30 p.m. All communications received on or before the closing date will be considered by the Director of the Aircraft Certification Service before issuing the final Advisory Circular.

Background

Aircraft operators have traditionally used High Frequency (HF)/Very High Frequency (VHF) communications systems for Aeronautical Operational Control and Air Traffic Services operations. Due to frequency congestion in oceanic and remote flight operations, aircraft operators have requested the use of satellite voice communication systems as a supplement to existing HF and VHF voice systems. Therefore the objective of this proposed AC is to provide guidance to allow for the airworthiness certification and evolutionary development of satellite voice during flight operations without compromising safety.

How To Obtain Copies

You may get a copy of the proposed AC from the Internet at <http://www.airweb.faa.gov/rgl>. Once on the RGL Web site, select "Advisory Circular", then select the document by number. See section entitled **FOR FURTHER INFORMATION CONTACT** for the complete address if requesting a copy by mail.

Issued in Washington, DC, on June 23, 2004.

Susan J.M. Cabler,

Assistant Manager, Aircraft Engineering Division, Aircraft Certification Service.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Intent To Rule on Request To Release Airport Land at Shafter Airport-Minter Field, Shafter, CA

AGENCY: Federal Aviation Administration, Department of Transportation.

ACTION: Notice of Request to Release Airport Land.

SUMMARY: The Federal Aviation Administration (FAA) proposes to rule and invites public comment on the release of approximately 34.98 acres of airport property at Shafter Airport-Minter Field, Shafter, California, from

all restrictions of the surplus property agreement since the land is not needed for airport purposes. Sale of the property will generate revenue for airport development projects. Reuse of the land for commercial/light industrial purposes represents a compatible land use.

DATES: Comments must be received on or before July 30, 2004.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Federal Aviation Administration, Airports Division, Federal Register Comment, 15000 Aviation Blvd., Lawndale, CA 90261. In addition, one copy of the comment submitted to the FAA must be mailed or delivered to Herman Ruddell, General Manager, Minter Field Airport District, Shafter Airport, 201 Aviation Street, Shafter, CA 93263.

FOR FURTHER INFORMATION CONTACT:

Tony Garcia, Airports Compliance Specialist, Federal Aviation Administration, Airports Division, 15000 Aviation Blvd., Lawndale, California 90261, telephone (310) 725-3634 and FAX (310) 725-6849. The request to release airport property may be reviewed in person by appointment at this same location or at Shafter Airport-Minter Field, Shafter, California.

SUPPLEMENTARY INFORMATION: In accordance with the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR 21), Public Law 10-181 (Apr. 5, 2000; 114 Stat. 61), this notice must be published in the **Federal Register** 30 days before the Secretary may waive any condition imposed on a federally obligated airport's interest in surplus property.

The following is a brief overview of the request:

The Minter Field Airport District requested a release from surplus property agreement obligations for approximately 34.98 acres of airport land at Shafter Airport-Minter Field, Shafter, California, originally acquired from the United States for airport purposes. The land is part of a larger parcel located east of the Friant Kern Canal in the southwest corner of the airport. The property is currently unused, undeveloped, and without structural improvements. It is located in an area that was once farmland but is now zoned for industrial use. The parcel is a considerable distance from the airfield. A water treatment plant lies between the parcel and the rest of the airport. The airport sponsor wishes to sell the land because it cannot be used

for airport purposes. The property's redevelopment for non-aeronautical purposes will comply with local zoning and compatible land-use requirements. The parcel will be sold at fair market value based on the land's appraised value. The sale will provide the airport with needed revenue for airport improvement and development projects. The net proceeds of the sale will be used entirely for airport purposes, thereby providing a tangible and direct benefit to the airport and civil aviation.

Issued in Hawthorne, California, on June 3, 2004.

John Lott,

Manager, Safety and Standards Branch, Airports Division, Western-Pacific Region.

Technical Standard Order—C157, Aircraft Flight Information Services—Broadcast (FIS-B) Data Link Systems and Equipment

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of availability and requests for public comment.

SUMMARY: This notice announces the availability of and request comments on a proposed Technical Standard Order (TSO)—C157, Aircraft Flight Information Services—Broadcast (FIS-B) Data Link Systems and Equipment. The proposed TSO tells manufacturers seeking TSO authorization or letter of design approval what minimum performance standards (MPS) their FIS-B Data Link System and Equipment must first meet for approval and identification with the applicable TSO markings.

DATES: Submit comments on or before August 3, 2004.

ADDRESSES: Send all comments on the proposed TSO—C157 to: Federal Aviation Administration, Aircraft Certification Service, Aircraft Engineering Division, Avionic Systems Branch, AIR-130, Room 815, 800 Independence Avenue, SW., Washington, DC 20591. ATTN: Mr. Kevin Bridges, AIR-130. You may deliver comments to: Federal Aviation Administration, Room 815, 800 Independence Avenue, SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Mr. Kevin Bridges, AIR-130, Room 815, Federal Aviation Administration, Aircraft Certification Service, Aircraft Engineering Division, 800 Independence
