##### II. Background

To help us carry out our conservation responsibilities for affected species, and in consideration of section 104(c) of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), we invite public comments on permit applications before final action is taken. With some exceptions, the MMPA prohibits certain activities with listed species unless Federal authorization is issued that allows such activities. Service regulations regarding permits for any activity otherwise prohibited by the MMPA with respect to any marine mammals are available in title 50 of the Code of Federal Regulations in part 18. Concurrent with publishing a notice in the **Federal Register**, we forward copies of marine mammal applications to the Marine Mammal Commission and the Committee of Scientific Advisors for their review.

We invite comments on the following application.

*Applicant:* NOAA/Alaska Fisheries Science Center, Seattle, WA; Permit No. 84399D

The applicant requests a permit to conduct aerial surveys of polar bears (*Ursus maritimus*) in the wild, to estimate abundance and for detection and classification model development for the purpose of scientific research. This notification covers activities to be conducted by the applicant over a 5-year period.

##### IV. Next Steps

After the comment period closes, we will make a decision regarding permit

issuance. If we issue a permit to the applicant listed in this notice, we will publish a notice in the **Federal Register**.
