

385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability is September 30, 2013.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 5 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

The filings in the above-referenced proceeding(s) are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Dated: September 9, 2013.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 12741-003]

Albany Engineering Corporation; Notice of Successive Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On August 20, 2013, Albany Engineering Corporation (Albany Engineering) filed an application for a successive preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of hydropower adjacent to the New York State Canal Corporation's Lock C5 located on the Hudson River in Saratoga and Washington Counties, New York. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Thomson Project would consist of: (1) A new arc-shaped dam consisting of six 111-foot-long 12-foot-high spillway sections integrated with five 50-foot-diameter circular-shell piers, located 1,600 feet downstream of the existing Northumberland Dam; (2) a new 324-acre impoundment between the new dam and the existing Northumberland Dam, that would extend an existing impoundment having a surface area of 2,750 acres at a normal water surface elevation of 101.1 feet mean sea level by lowering the crest of the existing dam; (3) a 4,000-foot-long by 12-foot-deep segment of the existing Champlain Canal; (4) the existing Lock No. 5 facilities; (5) five identical turbine-generating units each housed in one of five circular-shell piers, with a total capacity of 23.7 megawatts; (6) a new 8,000-foot-long, 34.5-kilovolt transmission line; and (7) appurtenant facilities. The proposed project would have an estimated average annual generation of 68.9 gigawatt-hours.

Applicant Contact: Wendy Jo Carey, Albany Engineering Corporation, 5 Washington Square, Albany, NY 12205; phone: (518) 456-7712.

FERC Contact: Monir Chowdhury; phone: (202) 502-6736.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-12741-003.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-12741) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: September 9, 2013.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Western Area Power Administration

Colorado River Storage Project-Rate Order No. WAPA-161

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of Order Temporarily Extending Firm Power, Transmission, and Ancillary Services Rates.

SUMMARY: This action is to extend the existing Salt Lake City Area Integrated Projects (SLCA/IP) Firm Power Rate and the Colorado River Storage Project

(CRSP) Transmission and Ancillary Services Rates through September 30, 2015. The existing SLCA/IP Firm Power Rate and CRSP Transmission and Ancillary Services Rates are set to expire September 30, 2013.

FOR FURTHER INFORMATION CONTACT: Ms. Lynn Jeka, CRSP Manager, CRSP Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580, (801) 524-6372, email jeka@wapa.gov, or Mr. Rodney Bailey, Power Marketing Manager, CRSP Management Center, Western Area Power Administration, 150 East Social Hall Avenue, Suite 300, Salt Lake City, UT 84111-1580, (801) 524-4007, email rbailey@wapa.gov.

SUPPLEMENTARY INFORMATION: Rate Schedules SLIP-F9, SP-PTP7, SP-NW3, SP-NFT6, SP-SD3, SP-RS3, SP-EI3, SP-FR3, and SP-SSR3, contained in Rate Order No. WAPA-137,¹ were approved by the Federal Energy Regulatory Commission (FERC) for a 5-year period through September 30, 2013. Western Area Power Administration (Western) is proposing to temporarily extend the existing SLCA/IP Firm Power Rate and CRSP Transmission and Ancillary Services Rates under Rate Schedules SLIP-F9, SP-PTP7, SP-NW3, SP-NFT6, SP-SD3, SP-RS3, SP-EI3, SP-FR3, and SP-SSR3 pursuant to 10 CFR § 903.23(b). As required by the Grand Canyon Protection Act of 1992, the Bureau of Reclamation has been preparing a reallocation of the costs of the Glen Canyon Dam. The results of the reallocation were recently finalized, provided to Western, and will be implemented into the FY 2013 power repayment study. Due to uncertainties that the reallocation will have on the SLCA/IP Rate, Western is seeking a temporary extension of the existing rates to allow sufficient time for a new rate process to be completed and the new rates to be placed into effect. The existing rates collect sufficient annual revenue to recover annual expenses, including interest and capital requirements, thus ensuring repayment of the project within the cost recovery criteria set forth in DOE Order RA 6120.2.

By Delegation Order No. 00-037.00, effective December 6, 2001, the Secretary of Energy delegated: (1) The authority to develop power and transmission rates to the Administrator of Western; (2) the authority to confirm,

¹ The rates in WAPA-137 were approved by the Federal Energy Regulatory Commission on a final basis on June 19, 2009, in Docket No. EF08-5171-000 (127 FERC ¶ 62,220).
