Throughout development of the RDEP, the BLM has engaged 10 cooperating agencies, State and local governments, tribes, the Arizona Resource Advisory Council, and other stakeholders in order to obtain input on defining the REDAs and general information on the desired renewable energy footprint in Arizona.

On February 17, 2012, the BLM published a Draft EIS for the Restoration Design Energy Project and Draft RMP Amendments (77 FR 9694). Public comments were accepted through May 16, 2012. More than 3,300 comments were received. The public, as well as some cooperating agencies, offered suggestions on how the BLM could improve the proposed footprint of the Agua Caliente SEZ, refine the screening process for the REDAs, and conduct additional analysis on the conditions of the disturbed sites. All comments were considered and incorporated as appropriate into the Proposed RMP Amendments and Final EIS. Public comments resulted in the addition of a new Agua Caliente SEZ footprint and refined boundaries for proposed REDAs.

Instructions for filing a protest with the Director of the BLM regarding the Final EIS may be found in the "Dear Reader" letter of the Final EIS for the Restoration Design Energy Project and at 43 CFR 1610.5-2. Email and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, the BLM will consider the email or faxed protest as an advance copy, and the protest will receive full consideration. If you wish to provide the BLM with such advance notification, please direct faxed protests to the attention of the BLM protest coordinator at 202-245-0028 and emails to bhudgens@blm.gov.

All protests, including the follow-up letter to emails or faxes, must be in writing and mailed to the appropriate address, as set forth in the **ADDRESSES** section above.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your
