

DEPARTMENT OF LABOR**Employment Standards Administration****Proposed Collection; Comment Request****ACTION:** Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment Standards Administration is soliciting comments concerning the proposed collection: Authorization for Release of Medical Information (CM-936). A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this Notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before July 31, 2006.

ADDRESSES: Ms. Hazel M. Bell, U.S. Department of Labor, 200 Constitution Ave., NW., Room S-3201, Washington, DC 20210, telephone (202) 693-0418, fax (202) 693-1451, e-mail bell.hazel@dol.gov. Please use only one method of transmission for comments (mail, fax, or e-mail).

SUPPLEMENTARY INFORMATION:

I. Background: The Black Lung Benefits Act, as amended 30 U.S.C. 901 *et seq.*, and 20 CFR 725.405 require that all relevant medical evidence be considered before a decision can be made regarding a claimant's eligibility for benefits. The CM-936 is a form that gives the claimant's consent for release of information required by the Privacy Act of 1974, and contains information required by medical institutions and private physicians to enable them to release pertinent medical information. This information collection is currently approved for use through November 30, 2006.

II. Review Focus: The Department of Labor is particularly interested in comments which:

- * Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- * Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- * Enhance the quality, utility and clarity of the information to be collected; and

- * Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions: The Department of Labor seeks approval for the extension of this information collection in order to obtain the claimant's consent for medical institutions and private physicians to release medical information to the Division of Coal Mine Workers' Compensation as evidence to support their claim for benefits. Failure to gather this information would inhibit the adjudication of black lung claims because pertinent medical data would not be considered during the processing.

Type of Review: Extension.

Agency: Employment Standards Administration.

Title: Authorization for Release of Medical Information.

OMB Number: 1215-0057.

Agency Number: CM-936.

Affected Public: Individual or households.

Estimated Total Burden Hours: 100.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

SUPPLEMENTARY INFORMATION:

I. Introduction

Pursuant to 10 CFR 2.106, the Nuclear
Regulatory Commission (NRC) is
providing notice that it is terminating
license 19-10306-02 for the U.S.
Department of the Army, (Army or
licensee), and releasing the Building
7304 (Vault) property in Fort Belvoir,
Virginia, for unrestricted use. The
Army's request for an amendment to
authorize decommissioning of its former
radioactive waste storage facility in Fort
Belvoir, Virginia, was previously
noticed in the **Federal Register** on
December 28, 2004 (69 FR 77779), with
a notice of an opportunity to request a
hearing.

The Army provided a final
radiological status survey to
demonstrate the site meets the license
termination criteria in subpart E of 10
CFR part 20. In addition, NRC staff
conducted independent in-process
measurements of residual
contamination remaining at the site.

The NRC staff has evaluated the
Army's request, has reviewed the results
of the final radiological survey, has
performed in-process confirmatory
measurements throughout the site
property, and has determined that the
site cleanup meets the unrestricted
release dose criteria in 10 CFR 20.1402.
The Commission has concluded that the
site is suitable for release for
unrestricted use, and has terminated the
license for the Fort Belvoir, Virginia
property. The staff prepared a Safety
Evaluation Report (SER) to support the
proposed action.

SER, are available electronically at the

SUPPLEMENTARY INFORMATION:

I. Introduction

The Nuclear Regulatory Commission

of a license amendment to Materials
License SNM-124, to Nuclear Fuel
Services, Inc. (NFS) (the licensee), to
exempt it from certain safety
requirements when shipping low-level
