Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: 2009 National Survey on Drug Use and Health—(OMB No. 0930-0110)—Revision

The National Survey on Drug Use and Health (NSDUH), formerly the National Household Survey on Drug Abuse (NHSDA) is a survey of the civilian, non-institutionalized population of the United States 12 years old and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

In the 2009 NSDUH, one scale measuring impairment from mental health issues will be adopted. The decision to adopt either the Sheehan or the WHO-DAS is currently being evaluated in the 2008 NSDUH by using the SCID-I/NP as a follow-up interview with a subsample of respondents. Based upon a substantive review of questions in the Youth Mental Health Services Utilization module, some additions and deletions will be made to this section to more specifically depict the types of providers and service delivery sites for youth mental health services. The remaining modular components of the questionnaire will remain essentially unchanged except for minor modifications to wording.

As with all NSDUH/NHSDA surveys conducted since 1999, the sample size of the survey for 2009 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia. The total annual burden estimate is shown below:

	No. of responses	Responses per respondent	Average burden per response (hr.)	Total burden (hrs)
Household Screening	190,800	1	.083	15,836

	No. of responses	Responses per respondent	Average burden per response (hr.)	Total burden (hrs)
Interview	67,500	1	1.0	67,500
Clinical Follow-up Certification	30	1	1.0	30
Clinical Follow-up Interview	500	1	1.0	500
Screening Verification	5,400	1	0.067	362
Interview Verification	10,125	1	0.067	678
	190,800			84,906

Written comments and recommendations concerning the proposed information collection should be sent by July 28, 2008 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: June 20, 2008.

Acting Director, Office of Program Services.

DEPARTMENT OF HOMELAND SECURITY

[Docket No. DHS-2008-0049]

Science and Technology Directorate; Submission for Review; Information Collection Request for the DHS S&T Biodefense Knowledge Center Expert Database; Correction

AGENCY: Science and Technology Directorate, DHS.

ACTION: 30-day Notice and request for comment; Correction.

SUMMARY: The Department of Homeland Security (DHS) published a document in the **Federal Register** on May 22, 2008, concerning a 30-day notice and request for comment on the Biodefense Knowledge Center Expert Database. The document contained the incorrect name of the Biodefense Knowledge Center, incorrectly written as Bio-Knowledge Center, as well as incorrect information in the summary, supplementary information, and overview of the information collection portion of the notice.

FOR FURTHER INFORMATION CONTACT: Dave Shepherd, 202-254-5897.

Corrections

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29773, in the second column, correct

the **SUMMARY** caption to read: The Department of Homeland Security (DHS) invites the general public to comment on a new data collection form for the Biodefense Knowledge Center Expert Database: Subject Matter Expert (SME) Registration Form (DHS Form 10043). The Biodefense Knowledge Center Database will collect SME information in order to understand who can provide scientific expertise for peer review of classified life science programs. In addition, the directory will make it easier to identify scientific specialty areas for which there is a shortage of SMEs with appropriate security clearances. SME contact information, scientific expertise, and level of education will be collected electronically through a web portal currently being developed by DHS S&T. The SME information will be shared with U.S. Government program managers who have a legitimate need to identify life sciences SMEs. Cleared SMEs are necessary to accomplish scientific reviews and attend topical meetings. This notice and request for comments is required by the Paperwork Reduction Act of 1995 (Pub. Law 104-13, 44 U.S.C. chapter 35). Previously, a 60-day notice was published in the **Federal Register** on March 14, 2008.

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29773, in the third column, correct the first sentence of the **SUPPLEMENTARY INFORMATION** caption to read: The National Counterproliferation Center has identified the need for a comprehensive and readily available list of life science SMEs who have security clearance status.

In the **Federal Register** of May 22, 2008, in FR Doc. E8-11454, on page 29774, in the first column, correct the last sentence of the third bullet under the "Overview of this Information Collection" caption to read: The SME information will be shared with U.S. Government program managers who have a legitimate need to identify life science SMEs.

Dated: June 16, 2008.

Science and Technology Directorate; Notice of Availability (NOA) for the Draft Environmental Impact Statement (DEIS) for the proposed National Bio and Agro-Defense Facility (NBAF)

AGENCY: Science and Technology Directorate (Office of National Laboratories within the Office of Research), DHS.

ACTION: Notice of Availability of the Draft Environmental Impact Statement for the National Bio and Agro-Defense Facility (NBAF).

SUMMARY: The Proposed Action to site, build, and construct the National Bio and Agro-Defense Facility (NBAF) would allow researchers to study foreign animal diseases (FAD) and zoonotic diseases (transmitted from animals to humans) for basic research, improving diagnostic tests, and developing effective vaccines and other countermeasures such as antiviral therapies. DHS anticipates that the NBAF would focus biosafety level 3 agricultural (BSL-3Ag) research on African swine fever, classical swine fever, contagious bovine pleuropneumonia, foot and mouth disease (FMD), Japanese encephalitis, and Rift Valley fever (RVF), as well as BSL-4 research on Hendra and Nipah viruses. The NBAF would be approximately 500,000 to 520,000 square feet and consist of a primary laboratory building with a vaccine development laboratory adjacent or contiguous to it. The primary research building would contain the BSL-2, BSL-3E, BSL-3Ag, and BSL-4 laboratories with their associated support spaces. The other laboratory building would be a current good manufacturing practice (cGMP) laboratory adjacent to the primary
