DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG-2012-1066]

Final Guidance Regarding Voluntary Inspection of Vessels for Compliance With the Maritime Labour Convention, 2006

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability.

SUMMARY: The Coast Guard announces the availability of Navigation and Vessel Inspection Circular (NVIC) 02-13, that sets forth the Coast Guard's policies and procedures regarding the inspection of U.S. vessels for voluntary compliance with the Maritime Labour Convention, 2006 (MLC or Convention). The Convention enters into force on August

20, 2013. The purpose of NVIC 02-13 is to provide guidance to the maritime industry, Coast Guard marine inspectors, and other affected parties on how the Coast Guard intends to implement the new voluntary inspection program. The Coast Guard finalized NVIC 02-13 after considering public comments received in response to our publication of a draft version of NVIC 02-13 in the **Federal Register** on February 11, 2013.

FOR FURTHER INFORMATION CONTACT: If you have questions on this notice, call or email Lieutenant Commander Christopher Gagnon, Coast Guard at cgc-cvc-1@uscg.mil; telephone 202-372-1224. If you have questions on viewing material in the docket, call Barbara Hairston, Program Manager, Docket Operations, telephone 202-366-9826.

SUPPLEMENTARY INFORMATION:

A. Viewing the NVIC and Public Comment Matrix

To view the NVIC, public comment matrix, and comments mentioned in this notice as being available in the docket, please go to <http://www.regulations.gov>, and follow the instructions on that Web site. If you do not have access to the internet, you may view the docket online by visiting the Docket Management Facility in Room W12-140 on the ground floor of the Department of Transportation West Building, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. We have an agreement with the Department of Transportation to use the Docket Management Facility.

B. Background and Purpose

The 94th (Maritime) session of the International Labour Conference (Geneva, February 2006) adopted the MLC, a new international agreement that consolidates almost all of the 70 existing International Labour Organization maritime labour instruments into a single, modern, globally applicable legal instrument. The Convention establishes comprehensive minimum requirements for working conditions of seafarers, including, among other things, conditions of employment, hours of work and rest, accommodations, recreational facilities, food and catering, health protection, medical care, welfare, and social security protection. It combines rights and principles with specific standards and detailed guidance on how to implement these standards at the national level. The Convention is comprised of three

different, but related parts: the Articles, the Regulations, and the Code. The Articles and Regulations set out the core rights and principles, and the basic obligations of members ratifying the Convention. The Code is comprised of a Part A (mandatory standards) and a Part B (non-mandatory guidelines).

To date, the U.S. Government has not ratified the Convention. Unless and until the U.S. Government ratifies the Convention, the Coast Guard cannot enforce Convention requirements on U.S. vessels or foreign vessels while on the navigable waters of the U.S. Article V, paragraph 7 of the Convention contains a "no more favorable treatment clause," which requires the governments of ratifying nations to impose Convention requirements on vessels from non-ratifying nations. As a result, a U.S. vessel that is not able to demonstrate voluntary compliance with the standards of the Convention may be at risk for Port State Control actions (including detention) when operating in a port of a ratifying nation.

To assist owners and operators of U.S. vessels in avoiding these risks, NVIC 02-13 sets forth guidance on a voluntary inspection program for vessel owners/operators who wish to document compliance with the standards of the MLC. U.S. commercial vessels that operate on international routes, meaning those vessels that will enter the ports of countries that are parties to the MLC, are encouraged to participate. Those vessels not engaging on international voyages are not affected.

In finalizing NVIC 02-13, the Coast Guard utilized measures identified in the MLC, including determinations that vessels will be deemed compliant with the MLC based on evidence of their compliance with substantially equivalent U.S. laws, regulations and other measures. The Coast Guard's use of such equivalencies is intended to help vessels streamline their compliance efforts so that, where appropriate, a vessel's compliance with domestic requirements also meets the standards of the MLC.

Should the U.S. Government ratify the MLC, its applicability may cover a broader population of vessel owners/operators than that addressed in NVIC 02-13. At that time, the Coast Guard would consider whether new or revised guidance is necessary.

C. Final NVIC and Response To Comments

On February 11, 2013, the Coast Guard published a notice in the **Federal Register** announcing the availability of a draft NVIC 02-13 and requesting public comments. (See 78 FR 9709).
