DC Energy Texas, LLC; DC Energy California, LLC; Notice of Issuance of Order

April 22, 2008.

DC Energy Texas, LLC (DC Texas) and DC Energy California, LLC (DC California) filed applications for market-based rate authority, with accompanying rate schedules. The proposed market-based rate schedules provide for the sale of energy, capacity and ancillary services at market-based rates. DC Texas and DC California also requested waivers of various Commission regulations. In particular, DC Texas and DC California requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by DC Texas and DC California.

On April 22, 2008, pursuant to delegated authority, the Director, Division of Tariffs and Market Development-West, granted the request for blanket approval under Part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by DC Texas and DC California, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2007). The Commission encourages the electronic submission of protests using the FERC Online link at <http://www.ferc.gov>.

Notice is hereby given that the deadline for filing protests is May 22, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, DC Texas and DC California are authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of DC Texas and DC California, compatible with the public

interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of DC Texas' and DC California's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a) (1) (iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.
