Needs and Uses: On April 5, 2006, the Commission adopted a *Report and Order and Third Order On Reconsideration, In the Matter of Rules and Regulations Implementing the Telephone Consumer Protection Act of 1991; Junk Fax Prevention Act of 2005*; CG Docket Nos. 02-278 and 05-338, FCC 06-42, which modified the Commission's facsimile advertising rules to implement the Junk Fax Prevention Act. The *Report and Order and Third Order on Reconsideration* contains information collection requirements pertaining to: (1) *Opt-out Notice and Do-Not-Fax Requests Recordkeeping* in which the rules require senders of unsolicited facsimile advertisements to include a notice on the first page of the facsimile that informs the recipient of the ability and

means to request that they not receive future unsolicited facsimile advertisements from the sender; (2) *Established Business Relationship Recordkeeping* whereas the Junk Fax Prevention Act provides that the sender, e.g., a person, business, or a nonprofit/institution, is prohibited from faxing an unsolicited advertisement to a facsimile machine unless the sender has an "established business relationship" (EBR) with the recipient; (3) *Facsimile Number Recordkeeping* in which the Junk Fax Prevention Act provides that an EBR alone does not entitle a sender to fax an advertisement to an individual or business. The fax number must also be provided voluntarily by the recipient; and (4) *Express Invitation or Permission Recordkeeping* where in the absence of an EBR, the sender must obtain the prior express invitation or permission from the consumer before sending the facsimile advertisement.

Section 227 of the Communications Act of 1934, as amended, and the FCC's parallel rules restrict various telemarketing and advertising activities. The new Junk Fax/Telemarketing Form, FCC Form 1088, is designed specifically for complaints that involve (1) junk faxes, (2) telemarketing (including do-not-call violations), and (3) other related issues such as prerecorded messages, automatic telephone dialing systems, and unsolicited commercial email messages to wireless telecommunications devices (cell phones, pagers). FCC Form 1088 will allow the Commission to collect detailed information from consumers concerning possible violations of the Communications Act and the FCC's fax and telemarketing rules, which will enable the Commission to investigate rule violations more efficiently and to initiate enforcement actions against violators as appropriate. By collecting their complaints and related information in a single, comprehensive template, the form will provide a standardized way for consumers to file complaints, thus eliminating the need for further documentation or questions from FCC investigators to determine whether violations have occurred. This ensures that consumers can present their complaints in a way that maximizes the FCC's ability to take enforcement actions against violators and protects complainants and other consumers from unlawful telemarketing and faxing that is intrusive, uninvited, and possibly costly. Furthermore, the form's format avoids the need for complainants to compose narratives that describe unwanted telemarketing or faxing, and instead permits

complainants to answer questions, principally by simply selecting options presented on the form, which should reduce the time to file a complaint. The form will allow the Commission to gather and to review this information more efficiently. The information the form collects may ultimately become the foundation for enforcement actions and/or rulemaking proceedings, as appropriate.

FCC Form 1088 asks for the complainant's contact information, including name, address, telephone number and e-mail address; then presents a "gateway" question to determine the general topic of the complaint: (1) A fax or (2) a call or message to a residential telephone, business telephone, emergency telephone or patient telephone, wireless telecommunications device, or any service for which the called party is charged. After the complainant answers this question, the form asks additional questions geared to the specific type of incident reported. The form poses certain mandatory threshold questions that must be answered for the Commission to determine whether a violation has occurred. It also presents optional questions for complainants who wish to provide the Commission with more detailed information that a complainant believes may assist the Commission in investigating the complaint. Finally, the form permits a complainant to attest to the accuracy of the information provided by ensuring that the Commission has documentation necessary for any possible enforcement actions without further contacting the complainant to obtain a sworn declaration or other materials. The Commission believes the new FCC Form 1088 to be a logical extension of its Junk Fax and Telemarketing rulemaking efforts.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.
