

whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

I. Background

The Institute of Museum and Library Services is the primary source of Federal support for the Nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.ims.gov.

II. Current Actions

The Museum Assessment Program (MAP) offers museums an opportunity to strengthen operations and plan for the future through a process of self-assessment, institutional activities, and consultative peer review. MAP is supported through a cooperative agreement between IMLS and the American Alliance of Museums. Program participants choose from among five assessments: Organizational, Collections Stewardship, Education and Interpretation, Community and Audience Engagement, and Board Leadership. Those who complete the assessment receive a report with prioritized recommendations reflecting the assessment type chosen. The forms submitted for public review will include the MAP Application, the MAP Follow-Up Visit Request Form, and seven online evaluations addressing specific aspects of the assessment process, the materials used, the individual(s) serving as peer reviewers, and the impact one year after the assessment's conclusion.

Agency: Institute of Museum and Library Services.

Title: Museum Assessment Program Application Forms.

OMB Control Number: 3137-0101.

Agency Number: 3137.

Respondents/Affected Public: Museum staff.

Total Estimated Number of Annual Respondents: 125.

Frequency of Response: Once per request.

Average Minutes per Response: 420 minutes.

Total Estimated Number of Annual Burden Hours: 875.

Cost Burden (dollars): TBD.

Public Comments Invited: Comments submitted in response to this Notice will be summarized and/or included in the request for OMB's clearance of this information collection.

Dated: November 23, 2021.

Suzanne Mbollo,

Grants Management Specialist, Institute of Museum and Library Services.

BILLING CODE 7036-01-P

OFFICE OF THE DIRECTOR OF NATIONAL INTELLIGENCE

Submission for Review: Financial Disclosure Form (SF-714)

AGENCY: Office of the Director of National Intelligence.

ACTION: 60-Day notice and request for comments.

SUMMARY: The Personnel Security Group, Special Security Directorate, National Counterintelligence and Security Center, Office of the Director of National Intelligence (ODNI) offers the general public and other federal agencies the opportunity to comment on an existing information collection request (ICR) SF-714. This request for comment is premised on an extension of the expiration date of the current SF-714 for an additional three years; no changes have been made to the existing form.

DATES: Comments are encouraged and will be accepted until January 31, 2022. This process is conducted in accordance with 5 CFR 1320.1.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to Mr. Gregory Koch, Director, Information Management Office, Chief Operating Officer, ODNI, Washington, DC 20511, Attention: Financial Disclosure Form, Personnel Security Group, Special Security Directorate, National Counterintelligence and Security Center.

SUPPLEMENTARY INFORMATION: In December 2011, the ODNI accepted responsibility from the Information Security Oversight Office (ISOO) to manage the continuation in existence of Standard Form 714: Financial Disclosure Report, in accordance with the responsibilities assigned to the Director of National Intelligence as Security Executive Agent. Pursuant to

the responsibilities assigned to the Director of National Intelligence as the Security Executive Agent under E.O. 13467 and the National Security Act (50 U.S.C. 3162a), the SF-714 collects information that is used to assist in making determinations regarding access to specifically designated types of classified information as specified in Section 1.3(c) of E.O. 12968. The data may also be used as a part of a review process to evaluate eligibility or continued eligibility for access to classified information or as evidence in legal proceedings. Information obtained from the SF-714 may also be used to help law enforcement and counterintelligence professionals gather pertinent information in the preliminary stages of potential espionage and/or counterterrorism cases.

As required by the Paperwork Reduction Act of 1995, (Pub. L. 104-13, 44 U.S.C. chapter 35) as amended by the Clinger-Cohen Act (Pub. L. 104-106), ODNI is soliciting comments for this collection. The Office of Management and Budget is particularly interested in comments that:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

BILLING CODE 9500–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–325 and 50–324; NRC–2021–0216]

Duke Energy Progress, LLC; Brunswick Steam Electric Plant, Units 1 and 2

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC, the Commission) is issuing an exemption in response to a request from Duke Energy Progress, LLC (Duke Energy, the facility licensee), on behalf of an individual named in the request, dated July 29, 2021, as supplemented by letters dated August 26, 2021 and October 25, 2021. The exemption permits a waiver of examination and test requirements for that individual to be supported by extensive actual operating experience at a comparable facility that occurred greater than 2 years before the date of application, as opposed to the regulatory requirement that this experience be within 2 years. The exemption is effective upon issuance, but only applies to the specifically named individual.

DATES: The exemption was issued on November 23, 2021.

ADDRESSES: Please refer to Docket ID NRC–2021–0216 when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

- **Federal Rulemaking Website:** Go to <https://www.regulations.gov> and search for Docket ID NRC–2021–0216. Address questions about Docket IDs in [Regulations.gov](https://www.regulations.gov) to Stacy Schumann; telephone: 301–415–0624; email: Stacy.Schumann@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- **NRC's Agencywide Documents Access and Management System (ADAMS):** You may obtain publicly available documents online in the

ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to PDR.Resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

- **NRC's PDR:** You may examine and purchase copies of public documents, by appointment, at the NRC's PDR, Room P1 B35, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. To make an appointment to visit the PDR, please send an email to PDR.Resource@nrc.gov or call 1–800–397–4209 or 301–415–4737, between 8:00 a.m. and 4:00 p.m. (ET), Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT:

Andrew Hon, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–8480; email: Andrew.Hon@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Duke Energy is the holder of Renewed Facility Operating License Nos. DPR–71 and DPR–62, which authorize the operation of Brunswick Steam Electric Plant, Units 1 and 2 (BSEP). BSEP consists of two boiling-water reactors located in Brunswick County, North Carolina. The licenses are subject to the rules, regulations, and orders of the NRC.

II. Request/Action

Part 55 of title 10 of the *Code of Federal Regulations* (10 CFR), “Operators’ Licenses,” specifies the procedures and criteria for the issuance of licenses to operators and senior operators of utilization facilities licensed under the Atomic Energy Act of 1954, as amended, or Section 202 of the Energy Reorganization Act of 1974, as amended, and 10 CFR part 50, Part 52, or Part 54. Pursuant to 10 CFR 55.11, “Specific exemptions,” the Commission may, upon application by an interested person, or upon its own initiative, grant such exemptions from the requirements of the regulations in 10 CFR part 55 as it determines are authorized by law and will not endanger life or property and are otherwise in the public interest.

The specific requirements for written examinations and operating tests for senior operator candidates are described

in 10 CFR 55.43, “Written examination: Senior operators,” and 10 CFR 55.45, “Operating tests,” respectively. Additionally, 10 CFR 55.47, “Waiver of examination and test requirements,” provides the criteria under which the Commission may waive any or all of the requirements for a written examination and operating test, upon application by a facility licensee. One criterion is that the Commission must find that the applicant “[h]as had extensive actual operating experience at a comparable facility, as determined by the Commission, within two years before the date of application”

By letter dated July 29, 2021 (ADAMS Accession No. ML21211A003), as supplemented by letters dated August 26, 2021 and October 25, 2021 (ADAMS Accession Nos. ML21238A332 and ML21298A166, respectively), the facility licensee requested a one-time exemption from a specific requirement in 10 CFR 55.47 on behalf of an individual who had previously been licensed as a senior operator at BSEP. The facility licensee stated that the application for this individual to be licensed a second time as a senior operator at BSEP was submitted approximately 2 years and 1 month since the individual had last been licensed at BSEP. Since 10 CFR 55.47 requires extensive actual operating experience within the 2 years before the date of application, the facility licensee requested a one-time exemption from this 2-year limit for the individual.

III. Discussion

Pursuant to 10 CFR 55.11, the Commission may, upon application by an interested person, or upon its own initiative, grant exemptions from the requirements of 10 CFR part 55 as it determines (1) are authorized by law, (2) will not endanger life or property, and (3) are otherwise in the public interest.

The Exemption Is Authorized by Law

Exemptions are authorized by law where they are not expressly prohibited by statute or regulation. A proposed exemption is implicitly authorized by law if it will not endanger life or property and is otherwise in the public interest and no other provisions in law prohibit, or otherwise restrict, its application. The NRC has reviewed the exemption request and finds that granting the proposed exemption will not result in a violation of the Atomic Energy Act of 1954, as amended, or other laws. Accordingly, the NRC finds that the exemption is authorized by law.
