The meeting site is accessible to individuals with disabilities. An individual with a disability needing an auxiliary aid or service to participate in the meeting, such as an interpreting service, assistive listening device, or materials in an alternate format, must notify the person listed under **FOR FURTHER INFORMATION CONTACT** two weeks before the scheduled meeting date. Although the BLM will attempt to meet a request received after that date, the requested auxiliary aid or service may not be available because of insufficient time to arrange it.

The Federal Advisory Committee Management Regulations [41 CFR 101-6.1015(b)] require BLM to publish in the **Federal Register** notice of a meeting 15 days prior to the meeting date.

II. Public Comment Procedures

Members of the public may make oral statements to the Advisory Board on September 28, 2009 at the appropriate

point in the agenda. This opportunity is anticipated to occur at 3 p.m., local time. Persons wishing to make statements should register with the BLM by noon on September 28, 2009 at the meeting location. Depending on the number of speakers, the Advisory Board may limit the length of presentations. At previous meetings, presentations have been limited to three minutes in length. Speakers should address the specific wild horse and burro-related topics listed on the agenda. Speakers must submit a written copy of their statement to the address listed in the **ADDRESSES** section or bring a written copy to the meeting.

Participation in the Advisory Board meeting is not a prerequisite for submission of written comments. The BLM invites written comments from all interested parties. Your written comments should be specific and explain the reason for any recommendation. The BLM appreciates any and all comments, but those most useful and likely to influence decisions on management and protection of wild horses and burros are those that are either supported by quantitative information or studies or those that include citations to and analysis of applicable laws and regulations. Except for comments provided in electronic format, speakers should submit two copies of their written comments where feasible. The BLM will not necessarily consider comments received after the time indicated under the **DATES** section or at locations other than that listed in the **ADDRESSES** section.

In the event there is a request under the Freedom of Information Act (FOIA) for a copy of your comments, the BLM will make them available in their entirety, including your name and address. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. The BLM will release all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, in their entirety, including names and addresses.

Electronic Access and Filing Address

Speakers may transmit comments electronically via the Internet to:

ramona_delorme@blm.gov. Please include the identifier "WH&B" in the subject of your message and your name and address in the body of your message.

Dated August 20, 2009.

Edwin L. Roberson,

Assistant Director, Renewable Resources and Planning.

Proposed Habitat Conservation Plan for the Federally Threatened Coastal California Gnatcatcher in Connection With the Jamacha Road 36-Inch Pipeline Construction Project (CIP P2009) in San Diego County, CA

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received an application from the Otay Water District (OWD) for a 5-year incidental take permit for one covered species under the Endangered Species Act of 1973 (Act), as amended. The application addresses the potential for "take" of the federally threatened coastal California gnatcatcher (*Poliophtila californica californica*) associated with the construction of a 36-inch pipeline (OWD CIP P2009) along Jamacha Road in the City of El Cajon and unincorporated community of Rancho San Diego in the County of San Diego, California. A habitat conservation program (HCP) to mitigate for the project activities would be implemented by OWD. We are requesting comments on the HCP and our preliminary determination that the proposed plan qualifies as a "low-effect" Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act (NEPA) of 1969, as amended. The basis for this determination is discussed in the Environmental Action Statement and Low Effect Screening Form (Screening Form), which is also available for public review.

DATES: To ensure consideration, we must receive your written comments by September 28, 2009.

ADDRESSES: Send comments by U.S. mail to Jim Bartel, Field Supervisor, U.S. Fish and Wildlife Service, Carlsbad Fish and Wildlife Office, 6010 Hidden Valley Road, Suite 101, Carlsbad, CA 92011, or by fax to (760) 431-5901.

FOR FURTHER INFORMATION CONTACT: Ms. Karen Goebel, Assistant Field Supervisor, Carlsbad Fish and Wildlife Office (see **ADDRESSES**); telephone (760) 431-9440, extension 296.

SUPPLEMENTARY INFORMATION: We have received an application from OWD for an incidental take permit for the federally threatened coastal California gnatcatcher (*Poliophtila californica*

californica) (gnatcatcher). A conservation program to mitigate for the project activities would be implemented by OWD as described in the *Habitat Conservation Plan for the Federally Threatened Coastal California Gnatcatcher in Connection with the Jamacha Road 36-inch Pipeline Construction Project (CIP P2009) in San Diego County, California* (HCP), July, 2009. This species is referred to as the "gnatcatcher" in the proposed HCP.

We are requesting comments on the HCP and our preliminary determination that the proposed plan qualifies as a "low-effect" Habitat Conservation Plan, eligible for a categorical exclusion under the National Environmental Policy Act (NEPA) of 1969, as amended. The basis for this determination is discussed in the Screening Form.

Availability of Documents

Individuals wishing copies of the proposed HCP and Screening Form, which includes the Environmental Action Statement, should immediately contact us by telephone at (760) 431-9440 or by letter to the Carlsbad Fish and Wildlife Office (see **ADDRESSES**). Copies of the proposed HCP and Screening Form also are available for public inspection during regular business hours at the same office.

Background

Section 9 of the Act (16 U.S.C. 1531 *et seq.*) and its implementing Federal regulations prohibit the take of animal species listed as endangered or threatened. Take is defined under the Act as follows: To harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect listed animal species, or to attempt to engage in such conduct (16 U.S.C. 1538). However, under section 10(a) of the Act, we may issue permits to authorize incidental take of listed species. "Incidental take" is defined by the Act as take that is incidental to, and not the purpose of, carrying out an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species, respectively, are found in the Code of Federal Regulations (October 1, 2006, 50 CFR 17.22) and (October 1, 2001, 50 CFR 17.32).

OWD is seeking a permit for take of the gnatcatcher. The current known range of the gnatcatcher extends from the coastal slopes in southern California, from southern Ventura southward through Los Angeles, Orange, Riverside, San Bernardino, and San Diego Counties into Baja California, Mexico, to approximately 30 degrees North latitude near El Rosario.
