SUMMARY: In accordance with the requirements of the Privacy Act of 1974, as amended, 5 U.S.C. 552a, Financial Management Service is publishing its inventory of Privacy Act systems of records.

SUPPLEMENTARY INFORMATION: Pursuant to the Privacy Act of 1974 (5 U.S.C. 552a) and the Office of Management and Budget (OMB) Circular No. A-130, Financial Management Service (FMS) has completed a review of its Privacy Act systems of records notices to identify minor changes to those notices. FMS' Privacy Act systems of records were last published on June 14, 2005 at 70 FR 34522-34535.

The following system of records was added to FMS' inventory of Privacy Act notices since June 14, 2005: FMS.006—Direct Deposit Enrollment Records, published October 12, 2005 at 70 FR 59395.

CATEGORIES OF RECORDS IN THE SYSTEM:

The records may contain identifying information, such as an individual's name(s), social security number, home address, home and work telephone number, and personal e-mail address (home and work); information about an individual's bank account(s) and other types of accounts to which payments are made, such as the individual's bank account number and the financial institution routing and transit number; information about an individual's payments received from the United States, including the type of payment received and the Federal agency responsible for authorizing the payment.

PURPOSE(S):

The purpose of this system is to maintain records about individuals who wish to enroll in the Direct Deposit program in order to receive Federal payments directly to a bank account or other similar type of account via electronic funds transfer, rather than by paper check. The records are used to process Direct Deposit enrollment applications that may be received directly by FMS, its fiscal agents, and/or contractors. The records are collected and maintained to guarantee that Direct Deposit enrollment applications are processed properly to ensure that a recipient's Federal payment will be disbursed to the correct account. Without the appropriate information, FMS, its fiscal agents and contractors, would not be able to process the Direct Deposit enrollment application as requested by the individual authorizing the Direct Deposit. The information will also be used for collateral purposes related to the processing of Direct Deposit enrollments, such as collection

of statistical information on operations, development of computer systems, investigation of unauthorized or fraudulent activity, and the collection of debts arising out of such activity.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be used to disclose information to:

(1) Appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violation of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of a potential violation of civil or criminal law or regulation;

(2) A court, magistrate, or administrative tribunal, in the course of presenting evidence, including disclosures to opposing counsel or witnesses, for the purpose of civil discovery, litigation, or settlement negotiations or in response to a subpoena, where relevant or potentially relevant to a proceeding, or in connection with criminal law proceedings;

(4) Fiscal agents, financial agents, financial institutions, and contractors for the purpose of processing Direct Deposit enrollment applications, including, but not limited to, processing Direct Deposit enrollment forms and implementing programs related to Direct Deposit; investigating and rectifying possible erroneous information; creating and reviewing statistics to improve the quality of services provided; conducting debt collection services for debts arising from Direct Deposit activities; or developing, testing and enhancing computer systems;

(5) Federal agencies, their agents and contractors for the purposes of facilitating the processing of Direct Deposit enrollment applications and the implementation of programs related to Direct Deposit;

(6) Federal agencies, their agents and contractors, credit bureaus, and employers of individuals who owe delinquent debt for the purpose of garnishing wages, only when the debt arises from the unauthorized or improper use of the Direct Deposit program. The information will be used for the purpose of collecting such debt through offset, administrative wage garnishment, referral to private collection agencies, litigation, reporting the debt to credit bureaus, or for any

other authorized debt collection purpose;

(7) Financial institutions, including banks and credit unions, for the purpose of disbursing payments and/or investigating the accuracy of information required to complete transactions using Direct Deposit and for administrative purposes, such as resolving questions about a transaction;

(8) Representatives of the National Archives and Records Administration (NARA) who are conducting records management inspections under authority of 44 U.S.C. 2904 and 2906; and

(9) Appropriate agencies, entities, and persons when (a) the Department suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (b) the Department has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the compromised information; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Department's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Debt information concerning a government claim against a debtor when the debt arises from the unauthorized use of Direct Deposit is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and 31 U.S.C. 3711(e), to consumer reporting agencies, as defined by the Fair Credit Reporting Act, 5 U.S.C. 1681(f), to encourage repayment of a delinquent debt.

STORAGE:

Hardcopy/Electronic.

RETRIEVABILITY:

Records are retrieved by name, social security number, telephone number, transaction identification number, or other alpha/numeric identifying information.

SAFEGUARDS:

All official access to the system of records is on a need-to-know basis only, as authorized by a business line

manager at FMS or FMS's fiscal agent. Procedural and physical safeguards, such as personal accountability, audit logs, and specialized communications security, are utilized. Each user of computer systems containing records has individual passwords (as opposed to group passwords) for which he or she is responsible. Thus, a security manager can identify access to the records by user. Access to computerized records is limited, through use of access codes, encryption techniques, and/or other internal mechanisms, to those whose official duties require access. Storage facilities are secured by various means such as security guards, badge access, and locked doors with key entry.

RETENTION AND DISPOSAL:

Electronic and paper records for enrollments and associated transactions will be retained for six (6) months or as otherwise required by statute or court order. Records in electronic media are electronically erased using industry-accepted techniques, and in accordance with applicable Financial Management Service policies regarding the retention and disposal of fiscal agency records. SYSTEM NAME:

Collections Records—Treasury/Financial Management Service.

⁴ FMS is updating its records schedules for these records to provide for a retention period of seven years for most payment records and a retention period of 20 years for certain trust-fund-related records. FMS must submit these records schedules to NARA. Until NARA approves the updated records schedules, disposal is not authorized.

SYSTEM LOCATION:

Records are located at the Financial Management Service, U.S. Department of the Treasury, Liberty Center Building (Headquarters), 401 14th Street, SW., Washington, DC 20227. Records are also located throughout the United States at various Federal Reserve Banks and financial institutions, which act as Treasury's fiscal and financial agents. The address(es) of the fiscal and financial agents may be obtained from the system manager below.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who electronically authorize payments to the Federal government through the use of communication networks, such as the Internet, via means such as Automated Clearing House (ACH), check conversion, credit card, and/or stored value card.

CATEGORIES OF RECORDS IN THE SYSTEM:

Collections records containing information about individuals who electronically authorize payments to the Federal government to the extent such records are covered by the Privacy Act of 1974. The records may contain identifying information, such as an individual's name(s), taxpayer identifying number (*i.e.*, Social Security number or employer identification number), home address, home telephone number, and personal e-mail address (home and work); an individual's employer's name, address, telephone number, and e-mail address; an individual's date of birth and driver's license number; information about an individual's bank account(s) and other types of accounts from which payments are made, such as financial institution routing and account number; credit card numbers; information about an individual's payments made to or from the United States (or to other entities such as private contractors for the Federal government), including the amount, date, status of payments, payment settlement history, and tracking numbers used to locate payment information; user name and password assigned to an individual; other information used to identify and/or authenticate the user of an electronic system to authorize and make payments, such as a unique question and answer chosen by an individual; information concerning the authority of an individual to use an electronic system (access status) and the individual's historical use of the electronic system. The records also may contain information about the governmental agency to which payment is made and

information required by such agency as authorized or required by law.

The information contained in the records covered by FMS's system of records is necessary to process financial transactions while protecting the government and the public from financial risks that could be associated with electronic transactions. It is noted that the system covers records obtained in connection with various mechanisms that are either used currently or may be used in the future for electronic financial transactions. Not every transaction will require the maintenance of all of the information listed in this section. The categories of records cover the broad spectrum of information that might be connected to various types of transactions.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 U.S.C. 301; 31 U.S.C. 321; 31 U.S.C. chapter 33; 31 U.S.C. 3720.

PURPOSE(S):

The purpose of this system is to maintain records about individuals who electronically authorize payments to the Federal government. The information contained in the records is maintained for the purpose of facilitating the collection and reporting of receipts from the public to the Federal government and to minimize the financial risk to the Government and the public of unauthorized use of electronic payment methods. Examples of payment mechanisms authorized electronically include ACH, check conversion, credit card, or stored value cards. Individuals may authorize payments using paper check conversion or Internet-based systems through programs such as "Pay.gov" and "Electronic Federal Taxpayer Payment System (EFTPS)." The information also is maintained to:

(a) Provide collections information to the Federal agency collecting the public receipts;

(b) Authenticate the identity of individuals who electronically authorize payments to the Federal government;

(c) Verify the payment history and eligibility of individuals to electronically authorize payments to the Federal government;

(d) Provide statistical information on collections operations;

(e) Test and develop enhancements to the computer systems that contain the records; and

(f) Collect debts owed to the Federal government from individuals when the debt arises from the unauthorized use of electronic payment methods.

FMS's use of the information contained in the records is necessary to

process financial transactions while protecting the government and the public from financial risks that could be associated with electronic transactions. The records are collected and maintained for three primary reasons. First, in order to process a payment electronically, a payor needs to submit his or her name and bank account or credit card account information. Without such information, FMS would not be able to process the payment as requested by the individual authorizing the payment. Second, to authenticate the identity of the person initiating the electronic transaction, FMS may, in some instances, require some or all of the information described in "Categories of records in the system," above, depending upon the level of risk associated with a particular type of transaction. Third, to verify the financial and other information provided by the person initiating the electronic transaction and to evaluate the payor's ability to make the payment authorized, FMS may compare information submitted with information available in FMS's electronic transaction historical database or commercial databases used for verification purposes, much like a store clerk determines whether someone paying by paper check has a history of writing bad checks. The ability to research historical transaction information will help eliminate the risk of fraudulent activity, such as the purchase of government products using an account with insufficient funds or using a stolen identity. By collecting and maintaining a certain amount of unique personal information about an individual who purchases goods from the government, FMS can help ensure that the individual's sensitive financial information will not be fraudulently accessed or used by anyone other than the individual.

In addition, the information contained in the covered records will be used for collateral purposes related to the processing of financial transactions, such as collection of statistical information on operations, development of computer systems, investigation of unauthorized or fraudulent activity related to electronic transactions, and the collection of debts arising out of such activity.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records may be used to disclose information to:

(1) Appropriate Federal, state, local or foreign agencies responsible for investigating or prosecuting the

violation of, or for enforcing or implementing, a statute, rule, regulation, order, or license, but only if the investigation, prosecution, enforcement or implementation concerns a transaction(s) or other event(s) that involved (or contemplates involvement of), in whole or part, an electronic method of collecting receipts for the Federal government. The records and information may also be disclosed to commercial database vendors to the extent necessary to obtain information pertinent to such an investigation, prosecution, enforcement or implementation;

(2) Commercial database vendors for the purposes of authenticating the identity of individuals who electronically authorize payments to the Federal government, to obtain information on such individuals' payment or check writing history, and for administrative purposes, such as resolving a question about a transaction. For purposes of this notice, the term "commercial database vendors" means vendors who maintain and disclose information from consumer credit, check verification, and address databases;

(3) A court, magistrate, or administrative tribunal, in the course of presenting evidence, including disclosures to opposing counsel or witnesses, for the purpose of civil discovery, litigation, or settlement negotiations or in response to a subpoena, where arguably relevant to the litigation, or in connection with criminal law proceedings;

(4) A congressional office in response to an inquiry made at the request of the individual to whom the record pertains;

(5) Fiscal agents, financial agents, financial institutions, and contractors for the purpose of performing financial management services, including, but not limited to, processing payments, investigating and rectifying possible erroneous reporting information, creating and reviewing statistics to improve the quality of services provided, conducting debt collection services, or developing, testing and enhancing computer systems;

(6) Federal agencies, their agents and contractors for the purposes of facilitating the collection of receipts, determining the acceptable method of collection, the accounting of such receipts, and the implementation of programs related to the receipts being collected;

(7) Federal agencies, their agents and contractors, credit bureaus, and employers of individuals who owe delinquent debt for the purpose of garnishing wages only when the debt

arises from the unauthorized use of electronic payment methods. The information will be used for the purpose of collecting such debt through offset, administrative wage garnishment, referral to private collection agencies, litigation, reporting the debt to credit bureaus, or for any other authorized debt collection purpose;

(8) Financial institutions, including banks and credit unions, and credit card companies for the purpose of collections and/or investigating the accuracy of information required to complete transactions using electronic methods and for administrative purposes, such as resolving questions about a transaction; and

(9) Appropriate agencies, entities, and persons when (a) the Department suspects or has confirmed that the security or confidentiality of information in the system of records has been compromised; (b) the Department has determined that as a result of the suspected or confirmed compromise there is a risk of harm to economic or property interests, identity theft or fraud, or harm to the security or integrity of this system or other systems or programs (whether maintained by the Department or another agency or entity) that rely upon the compromised information; and (c) the disclosure made to such agencies, entities, and persons is reasonably necessary to assist in connection with the Department's efforts to respond to the suspected or confirmed compromise and prevent, minimize, or remedy such harm.

DISCLOSURE TO CONSUMER REPORTING AGENCIES:

Debt information concerning a government claim against a debtor when the debt arises from the unauthorized use of electronic payment methods is also furnished, in accordance with 5 U.S.C. 552a(b)(12) and 31 U.S.C. 3711(e), to consumer reporting agencies, as defined by the Fair Credit Reporting Act, 5 U.S.C. 1681(f), to encourage repayment of a delinquent debt.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Electronic.

RETRIEVABILITY:

Records are retrieved by account number (such as financial institution account number or credit card account number), name (including an authentication credential, *e.g.*, a user name), social security number, transaction identification number, or other alpha/numeric identifying information.

SAFEGUARDS:

All officials access the system of records on a need-to-know basis only, as authorized by the system manager after security background checks. Procedural and physical safeguards, such as personal accountability, audit logs, and specialized communications security, are utilized. Accountability and audit logs allow systems managers to track the actions of every user of the system. Each user has an individual password (as opposed to a group password) for which he or she is responsible. Thus, a system manager can identify access to the records by user. Access to computerized records is limited, through use of encryption, access codes, and other internal mechanisms, to those whose official duties require access. Storage facilities are secured by various means such as security guards, locked doors with key entry, and limited virtual access requiring a physical token.

RETENTION AND DISPOSAL:

Disposal is not authorized at this time.⁵
