

Bulletin 767–25A0260, dated July 9, 1998. Repeat the inspection thereafter at intervals not to exceed 6,000 flight hours or 18 months, whichever occurs later.

Note 1: Boeing Alert Service Bulletin 767–25A0260, dated July 9, 1998, allows repetitive inspections of a door latch having part number H2052–11 or H2052–115, provided that the latch is not worn or damaged. However, replacement of any latch having part number H2052–11 or H2052–115 with a new latch having part number H2052–13 is described as part of a modification of the escape slide compartment door latching mechanism that is specified in Boeing Alert Service Bulletin 767–25A0174, dated August 15, 1991. Accomplishment of that modification is required by AD 92–16–17, amendment 39–8327, and AD 95–08–11, amendment 39–9200. Therefore, operators should note that any latch having part number H2052–11 or H2052–115 found during an inspection required by paragraph (f) of this AD is already required to be replaced in accordance with AD 92–16–17 or AD 95–08–11, as applicable.

(g) Inspections and corrective actions accomplished prior to July 18, 2000, in accordance with the Validation Copy of Boeing Alert Service Bulletin 767–25A0260, dated April 28, 1998, are considered acceptable for compliance with the applicable action specified in this AD.

Replacement

(h) If any part is found to be worn or damaged during the inspections performed in accordance with paragraph (f) of this AD, prior to further flight, replace the worn or damaged part with a new part, and perform an adjustment of the off-wing escape slide system, in accordance with Boeing Alert Service Bulletin 767–25A0260, dated July 9, 1998.

New Optional Actions

Compliance With Revisions 1 Through 3 of Referenced Service Bulletin

(i) Inspections and applicable corrective actions done after the effective date of this AD in accordance with Boeing Service Bulletin 767–25A0260, Revision 1, dated January 25, 2001; Revision 2, dated August 26, 2004; or Revision 3, dated July 7, 2005; are acceptable for compliance with the corresponding requirements of this AD.

Alternative Methods of Compliance (AMOCs)

(j) The Manager, Seattle Aircraft Certification Office, FAA, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

Issued in Renton, Washington, on September 13, 2005.

Kalene C. Yanamura,

Acting Manager, Transport Airplane Directorate, Aircraft Certification Service.

[Docket No. FAA–2005–22399; Airspace Docket No. 05–AAL–27]

RIN 2120–AA66

Proposed Modification of the Norton Sound Low Offshore Airspace Area; AK

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to amend the Norton Sound Low airspace area, AK. Specifically, this action proposes to modify the Norton Sound Low airspace area in the vicinity of the Deering Airport, AK, by lowering the controlled airspace floor to 1,200 feet mean sea level (MSL) and expanding the area to a 45-nautical mile (NM) radius of the airport. The FAA is proposing this action to provide additional controlled airspace for aircraft instrument operations at the Deering Airport.

DATES: Comments must be received on or before November 7, 2005.

ADDRESSES: Send comments on this proposal to the Docket Management System, U.S. Department of Transportation, Room Plaza 401, 400 Seventh Street, SW., Washington, DC 20590–0001. You must identify FAA Docket No. FAA–2005–22399 and Airspace Docket No. 05–AAL–27, at the beginning of your comments. You may also submit comments through the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: Ken McElroy, Airspace and Rules, Office of System Operations Airspace and AIM, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267–8783.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal.

Communications should identify both docket numbers (FAA Docket No. FAA–2005–22399 and Airspace Docket No. 05–AAL–27) and be submitted in triplicate to the Docket Management System (see **ADDRESSES** section for address and phone number). You may also submit comments through the Internet at <http://dms.dot.gov>.

Commenters wishing the FAA to acknowledge receipt of their comments on this action must submit with those comments a self-addressed, stamped postcard on which the following statement is made: “Comments to FAA Docket No. FAA–2005–22399 and Airspace Docket No. 05–AAL–27.” The postcard will be date/time stamped and returned to the commenter.

All communications received on or before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this action may be changed in light of comments received. All comments submitted will be available for examination in the public docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM's

An electronic copy of this document may be downloaded through the Internet at <http://dms.dot.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at <http://www.faa.gov>, or the Federal Register's web page at <http://www.gpoaccess.gov/fr/index.html>.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see **ADDRESSES** section for address and phone number) between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division, Federal Aviation Administration, 222 West 7th Avenue #14, Anchorage, AK 99513.

Persons interested in being placed on a mailing list for future NPRM's should contact the FAA's Office of Rulemaking, (202) 267–9677, for a copy of Advisory Circular No. 11–2A, Notice of Proposed Rulemaking Distribution System, which describes the application procedure.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) part 71 to modify the Norton Sound Low airspace area, AK by

lowering the floor to 1,200 feet MSL within a 45 NM radius of Deering Airport, AK. The purpose of this proposal is to establish controlled airspace to support instrument flight rules operations at Deering Airport, AK. The FAA Instrument Flight Procedures Production and Maintenance Branch has developed four new instrument approach procedures for the Deering Airport. New controlled airspace extending upward from 1,200 feet MSL above the surface in international airspace would be created by this action. The proposed airspace is sufficient to support instrument operations at the Deering airport.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore, this proposed regulation: (1) Is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

ICAO Considerations

As part of this proposal relates to navigable airspace outside the United States, this notice is submitted in accordance with the International Civil Aviation Organization (ICAO) International Standards and Recommended Practices.

The application of International Standards and Recommended Practices by the FAA, Office of System Operations Airspace and AIM, Airspace & Rules, in areas outside the United States domestic airspace, is governed by the Convention on International Civil Aviation. Specifically, the FAA is governed by Article 12 and Annex 11, which pertain to the establishment of necessary air navigational facilities and services to promote the safe, orderly, and expeditious flow of civil air traffic. The purpose of Article 12 and Annex 11 is to ensure that civil aircraft operations on international air routes are performed under uniform conditions.

The International Standards and Recommended Practices in Annex 11 apply to airspace under the jurisdiction

of a contracting state, derived from ICAO. Annex 11 provisions apply when air traffic services are provided and a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting this responsibility may apply the International Standards and Recommended Practices that are consistent with standards and practices utilized in its domestic jurisdiction.

In accordance with Article 3 of the Convention, state-owned aircraft are exempt from the Standards and Recommended Practices of Annex 11. The United States is a contracting state to the Convention. Article 3(d) of the Convention provides that participating state aircraft will be operated in international airspace with due regard for the safety of civil aircraft. Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator is consulting with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959–1963 Comp., p. 389.

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9N, Airspace Designations and Reporting Points, dated September 1, 2005, and effective September 16, 2005, is amended as follows:

Paragraph 6007 Offshore Airspace Areas
* * * * *

Norton Sound Low, AK [Amended]

That airspace extending upward from 1,200 MSL within a 45-mile radius of the Deering Airport Alaska, and airspace extending upward from 14,500 feet MSL within an area bounded by a line beginning at lat. 59°59'57" N., long. 168°00'08" W.; to

lat. 62°35'00" N., long. 175°00'00" W.; to lat. 65°00'00" N., long. 168°58'23" W.; to lat. 68°00'00" N., long. 168°58'23" W.; to a point 12 miles offshore at lat. 68°00'00" N.; thence by a line 12 miles from and parallel to the shoreline to lat. 56°42'59" N., long. 160°00'00" W.; to lat. 58°06'57" N., long. 160°00'00" W.; to lat. 57°45'57" N., long. 161°46'08" W.; to the point of beginning, excluding that portion that lies within Class E airspace above 14,500 feet MSL, Federal airways and the Nome and Kotzebue, AK, Class E airspace areas.

BILLING CODE 4910–13–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 180

[OPP–2004–0344; FRL–7719–7]

C8, C10, and C12 Straight-Chain Fatty Acid Monoesters of Glycerol and Propylene Glycol; Amendment to Tolerance Exemption

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This document proposes to amend an exemption from the requirement of a tolerance for residues of the C8, C10, and C12 straight-chain fatty acid monoesters of glycerol and propylene glycol on all food commodities when applied/used for both pre-harvest and post-harvest purposes. On June 23, 2004, EPA established an exemption from the requirement of a tolerance for these residues but did not expressly approve post-harvest uses in accordance with 40 CFR 180.1(i). Therefore, EPA is proposing this regulation, to amend the existing tolerance exemption to allow for post-harvest uses of C8, C10, and C12 straight-chain fatty acid monoesters of glycerol and propylene glycol in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act (FFDCA) as amended by the Food Quality Protection Act of 1996 (FQPA).

DATES: Comments, identified by docket ID number OPP–2004–0344, must be received on or before October 6, 2005.

ADDRESSES: Submit your comments, identified by docket ID number OPP–2004–0344, by one of the following methods:
