

I. Submission of Comments on This Notice and Internet Access to Comments and Submissions

You may submit comments in response to this document by (1) hard copy, (2) FAX transmission (facsimile), or (3) electronically through the OSHA webpage. Please note that you cannot attach materials such as studies or journal articles to electronic comments. If you have additional materials, you must submit three copies of them to the OSHA Docket Office at the address above. The additional materials must clearly identify your electronic comments by name, date, subject and docket number so we can attach them to your comments. Because of security-related problems there may be a significant delay in the receipt of comments by regular mail. Please contact the OSHA Docket Office at (202) 693-2350 for information about security procedures concerning the delivery of materials by express delivery, hand delivery and messenger service.

II. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burdens, conducts a pre-clearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). OSHA will be requesting approval from the Office of Management and Budget (OMB) for certain information collection requirements contained in the Strategic Partnerships for Worker Safety and Health. This notice initiates the process for OSHA to request OMB approval. The need to collect information in order to gauge program success is an integral part of OSHA's strategic planning processes, and partnerships, like other agency activities, are required to regularly provide information to the agency. The agency uses this information to assess the effectiveness of its programs, identify needed improvements, and ensure that its resources are being used to good and effective purpose.

III. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed collection of information is necessary for the proper performance of the Agency's functions, including whether the information will have practical utility;
- The accuracy of the Agency's estimate of the burden of the proposed

collection of information, including the validity of the methodology and assumptions used; and

- The quality, utility, and clarity of the information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

IV. Proposed Actions

OSHA proposed to extend OMB's approval of the collection of information requirements specified in 5 CFR 1320.8(d). OSHA will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of the information-collection requirements for the OSPP. The burden hour increase is a result of the increasing number of partnerships.

Type of Review: Extension of a currently approved information-collection requirement.
